INDASA *PROFESSIONAL SANDING SYSTEMS*

Founded in 1979, INDASA is now one of Europe's leading manufacturers of high performance coated abrasives.

From its headquarters in Aveiro, Portugal, the company specialises in the production of

innovative sanding materials and systems that deliver market specific solutions to a wide range of manufacturing and service industries.

An ongoing program of investment has resulted in the manufacturing plant becoming one of the most modern production facilities in Europe, with increased capacity to respond to the growing demands of the global market for INDASA's Rhyno brand of abrasive products. The consistently high standards of development, production and marketing of coated abrasives has earned the company a number of globally recognized accreditations over the years.

The INDASA Group consists of 8 wholly owned subsidiaries that are located in Spain, UK, France, Germany, Poland, Brazil, USA and Italy.

Export markets have been established in over 100 countries worldwide with a network of key distribution partners that service local market demand and promote continued business development.

Over the past 43 years, INDASA has successfully positioned itself as one of the leading coated abrasives brands in the UK. With a commitment to our customers and innovative product range, INDASA has become synonymous with performance, satisfaction and quality. INDASA offers a wide range of abrasives and accessories for your needs, regardless of your industry. We strive to continually develop and supply a wide range of quality products and systems to meet all of the strict and ever-changing market needs.

In 1994 INDASA implemented a Quality Assurance System according to the NP EN ISO 9002 which was a natural step to strengthen and standardise our manufacturing capabilities. INDASA extended its certification to ISO 9001 in 2000, including development, manufacturing and distribution of flexible abrasives. The company's management system is currently certified for the "development, manufacturing and selling of flexible abrasives and complementary products."

INDASA CORE VALUES

MANUFACTURING

We have been at the forefront of manufacturing abrasives for over 40 years. Fundamental to our strategic goal is our desire to continuously fulfil the highest quality and performance standards.

An essential component of our work ethic is our manufacturing expertise, which is a direct result of the investment in the personal development of the INDASA employee. This collaborative synergy ensures that we manufacture and operate with customer value and market specific solutions in mind.

QUALITY AND R&D

Our commitment to deliver an inspired and valued range of products, is one that can only be achieved by a company whose culture strives for excellence.

We utilise our key areas of expertise in the manufacturing process to ensure that nothing but the highest quality product leaves our production plant and represents our brand.

Through highly competent internal resources, unique partnerships with key suppliers, universities and R&D centres, we have created a business and operating model that differentiates us from other renowned global players.

Our ability to challenge traditional concepts in an ever-evolving industry positions us as a leading provider for performance products, materials and service.

CORPORATE RESPONSIBILITY

It's becoming increasingly evident that responsible business practices are imperative for a successful future.

Corporate responsibility and sustainability drives our business development and innovation - ultimately it shapes the way in which we operate.

ENVIRONMENTAL SUSTAINABILITY

Recognition of our environmental sustainability is gaining momentum throughout the business operation, from energy resource or waste generation to commercial mileage consumption.

We believe that having a positive reputation exemplifies our proposition for our customers, employees, shareholders and business partners alike.

MORE ABOUT US

R&

RESEARCH &
DEVELOPMENT

Research & Development plays a crucial role in the ongoing development of technically advanced, high performance abrasive materials. Only the highest quality raw materials and FEPA compliant mineral grains are used, thus providing consistency of performance and efficiency across the abrasive grit range.

INDASA utilises its key areas of expertise to offer complete systems for surface treatment, preparation and finishing, across diverse market sectors such as automotive, marine & composite, woodworking and building & decorative trades.

ULTRAVENT

ADVANCED DUST FREE SOLUTION

INDASA has developed a unique and highly advanced dust free sanding solution with the ability to transform the future of machine sanding. The extraction capacity of the new Ultravent system virtually eliminates abrasive clogging, prolongs performance and provides a clean, healthy working environment. The superior dust free sanding process produces a highly consistent finish, maximizes operator efficiency and optimises bodyshop key performance indicators (KPI's).

INNOVATIVE CELL TECHNOLOGY

by INDASA

INDASA launched the Rhynocell abrasive system that brings a new dimension to specialised surface preparation for compound and high gloss polishing applications. It is a system resulting from a collaboration between our R&D department and leading paint and polish companies. This pre-polishing process incorporates an innovative cell technology developed by INDASA. The uniformity and consistency of scratch delivers the optimum surface for compound/polish applications and offers a labour efficient and material savings polishing process.

You can see it in the finish.

INDASA ACADEMY

Opened in January 2016, the INDASA Academy welcomes customers from all over the world serving the broadest spectrum of industry markets.

The Academy represents not only a major investment in the facility but also the commitment and delivery of technical expertise and instruction.

MORE ABOUT
ACADEMY

The application of best working practice is a key essential in driving efficiency for the workforce and business operation. Our team of experienced technicians instruct delegates in the very latest process and application techniques utilising INDASA's innovative range of abrasive system technologies. The bespoke and tailored training programmes develop the customer's skill base and optimise efficiencies in the workplace.

AUTOMOTIVE REPAIR PROCESS GUIDE

PANEL REPAIR

1 Clean panel prior to repair.

METHOD

Remove all dust, dirt and traffic film residue from panel leaving a clean/dry repair area.

PRODUCT

Panel wipe cloth
Degreaser

2 Sand the repair area to prepare for the application of body filler.

METHOD

Machine sand the repair area to a clean, bare metal surface or prepare the OE paint finish if using multi-substrate body filler.

PRODUCT

Rhynogrip HT Line ULTRAVENT disc
Grit P80 – P180

EQUIPMENT

Orbital palm sander with 5mm orbit
Dust extraction

3 Prepare the EVERCOAT™ body filler and apply to the repair area.

METHOD

Mix the hardener with the filler to a 2% ratio (by weight) on the mixing board.

PRODUCT

EVERCOAT Rage Ultra

EQUIPMENT

Rhyno mixing board
Autofill spreader

4 Shape the filler to match the required panel contour.

METHOD

Apply Dry Guide Coat to the filler area then hand sand with dust extraction block to achieve the required shape of repair.

PRODUCT

Rhynogrip HT Line strip
Grit P80 – P180 (size to suit)
Dry Guide Coat

EQUIPMENT

Dust extraction block
Dust extraction

5 Machine sand the surrounding areas to achieve a feathered edge.

METHOD

Machine sand the repair area to remove all scratches, leaving a feather edge into the surrounding paintwork.

PRODUCT

Rhynogrip HT Line ULTRAVENT disc
Grit P180– P320 (feather edge)

EQUIPMENT

Orbital palm sander with 5mm orbit
Dust extraction

PREPARATION FOR PRIMER

1 Clean the repair and surrounding area for primer application.

METHOD

Remove all dust and dirt from panel leaving a clean/dry repair area.

PRODUCT

Panel wipe cloth
Degreaser

2 Apply 440 Express to eliminate micro-pinholes in the repair surface and to enhance primer coverage.

METHOD

Apply a small amount with a cloth to cover the repair area. Wipe off residue and leave to dry for 15 minutes prior to primer application.

PRODUCT

EVERCOAT 440 Express

3 Protection masking for the panel and repair area.

METHOD

Apply masking tape to the edge of the repair area to protect any adjacent panels.

PRODUCT

Masking tape MTE
Masking Foam
Cover Roll

4 Thoroughly clean the repair area prior to primer application.

METHOD

Remove all dust/dirt particles from repair area leaving a clean/dry panel surface for priming.

PRODUCT

Low tack cloth

5 Apply primer to the repair area.

METHOD

Refer to the paint manufacturer's technical data sheet for application process.

Please follow recommended guidelines for cure time and if IR compatible.

PRODUCT

Compliant paint refinishing process

The INDASA ACADEMY represents the commitment and delivery of technical expertise and instruction. Training programmes are tailored to develop the customer's skill base and optimise performance efficiencies in the workplace.

In the UK, INDASA provides on a daily basis:

- ▶ High performance abrasive systems and innovative refinishing solutions
- ▶ Consistency through a compliant repair process
- ▶ Commercial advantage through best working practice
- ▶ Structured programme for enhanced bodyshop profitability

PREPARATION FOR TOPCOAT

1 Apply protection masking to surrounding area.

METHOD

Apply masking tape to the edge of the repair area to protect any adjacent panels.

PRODUCT

Masking tape MTE

2 Block sand the primed area.

METHOD

Apply Dry Guide Coat then hand sand the repair area, leaving a smooth, primed surface finish.

PRODUCT

Rhynogrip HT Line strip
Grit P320 (size to suit)
Double sided sponges Auto (SF)
Dry Guide Coat

EQUIPMENT

Dust extraction block
Dust extraction

3 Reapply Dry Guide Coat and machine sand the primed area.

METHOD

Machine sand the primed area to a smooth finish.

PRODUCT

Rhynogrip HT Line ULTRAVENT disc
Grit P500

EQUIPMENT

Orbital palm sander with 2,5 mm orbit
Softform adaptor pad
Dust extraction

4 Prepare the surrounding blend area.

METHOD

Machine sand the area to be blended for clear coat. Hand sand any edges and awkward areas.

PRODUCT

Rhynogrip HT Line ULTRAVENT disc
Grit 1000
Nylon Web (grey) or Double sided sponges Auto (MF)

EQUIPMENT

Orbital palm sander with 2,5mm orbit
Softform adaptor pad
Dust extraction

5 Mask before paint.

METHOD

Mask and protect the car before it goes into the spray booth to apply topcoat.

PRODUCT

Trim masking tape
MTE Masking tape
Masking Foam
Cover Roll

6 Thoroughly inspect and clean the panel repair area prior to topcoat application.

METHOD

Remove all dust/dirt particles from repair area leaving a clean/dry panel surface for painting.

Before spraying degrease as per manufacturer's guidelines and tack wipe the entire area to be painted.

PRODUCT

Low tack cloth

PAINT RECTIFICATION AND POLISH

1 Remove any paint imperfections (nibs) from the paint surface.

METHOD

For small areas denib by hand. Machine sand large areas.

PRODUCT

Rhynostick MFS daisy discs
Rhynogrip Film Line disc
Grit P1500 (size to suit)

EQUIPMENT

Orbital palm sander with 2,5 mm orbit
Softform adaptor pad
Dust extraction

2 Prepare the surface area for compounding.

METHOD

Machine sand the area to remove all traces of sanding marks in the surface.

PRODUCT

Rhynocell disc. Grit MF3000 (size to suit)

EQUIPMENT

Orbital palm sander with 2,5 mm orbit
Dust extraction

3 Machine compound the repair area.

METHOD

Low speed polisher with compound to remove all traces of sanding marks and to leave gloss finish.

PRODUCT

Autogloss Compound Plus
Autogloss Mop (white)

EQUIPMENT

E-Series electric rotary polisher

4 Polish the panel to a showroom gloss finish.

METHOD

Low speed polisher with liquid polish to remove swirl marks and to produce high gloss finish.

PRODUCT

Autogloss High-Gloss Plus
Autogloss Mop (black)

EQUIPMENT

E-Series electric orbital polisher

5 Remove all residue to a flawless finish.

METHOD

Clean the surface to a high gloss finish.

PRODUCT

Microfibre cloth (blue)

Health and safety compliance is required for all processes.

INDASA PROCESS TO PROFIT

DRIVING EFFICIENCY

The application of best working practices is a key essential in driving efficiency for the workforce and business operation. We have developed a structured programme of advanced repair techniques and procedures to position the INDASA product proposition at the pinnacle of industry standards.

A PROCESS THAT DELIVERS

As organisations seek to improve profitability, current working practices come under increased scrutiny and pressure. In order to help our business operator, INDASA provides on a daily basis:

- High performance abrasive systems
 - Innovative refinish solutions
 - Training and technical expertise to maximise workforce competence
 - Business operational KPIs
 - Commercial advantage
 - Consistency through a structured repair and refinish process
 - Structured programme for bodyshop profitability
- ... We call it Process-to-Profit.

AUTOMOTIVE REPAIR PROCESS GUIDE

The Automotive Process Guide is fully integrated with our Process to Profit program.

How can our Guide help?

1. It is a structured and process-oriented approach, providing the latest and best working practices and repair techniques;
2. Consistency of repair through the compliant process, effective and efficient use of materials, improvement of productivity, and reduced repair costs;
3. The Process Guide is also available as a video presentation: on the YouTube channel @INDASAAbrasives-Official

With a scope to provide a clear insight to all bodyshop professionals, we have compiled video repair process guides for the 4 key stages of vehicle repair: Panel Repair, Preparation for Primer, Preparation for Topcoat, Paint Rectification and Polish.

1 / 4 Panel Repair

2 / 4 Preparation for Primer

3 / 4 Preparation for Topcoat

4 / 4 Paint Rectification and Polish

PRODUCT TYPE

THE COMPONENTS

RHYNO ABRASIVE SYSTEMS

Rhyno products offer the optimum performance and durability for all refinishing operations. Developed specifically to meet the exact standards of the professionals and to keep pace with advanced refinishing techniques, they perform quicker and last longer while producing the ideal surface for the next stage of the work process.

ABRASIVES

High performance mineral grains:
Aluminum oxide
Silicon carbide
Zirconium

BONDING

Advanced modified synthetic resins.

DRY SANDING SPECIAL COATING

As a 3rd coating, a clog resistant lubricant technology is used in specific products for dry sanding operations.

BACKINGS

PAPER

The most used are the following premium backing papers:

A B C D E G H
flexibility Resistance

The waterproof latex papers incorporate a synthetic polymer which also increases flexibility.

CLOTH

F¹ X¹ Y²
flexibility Resistance

VULCANIZED FIBRE

Is used in abrasive discs for very heavy duty applications.

POLYESTER FILM

Used for finishing operations performed with microfine grits.

FASTENING SYSTEMS

THE TAB SYSTEM

INDASA has developed a simple but efficient system – the “Tab” – that allows the quick removal of the release paper from the **Rhynostick** discs.

THE GRIP SYSTEM

The brushed nylon “Grip” system enables the removal of the **Rhynogrip** discs from the machine’s backing pad for reuse.

INDASA abrasives systems are at the forefront of coated abrasive technology. The investments in the development of our products are always in response to the needs of our customers and in trend with the latest surface treatment techniques, resulting in the unquestionable recognition of our brand worldwide. INDASA's offering includes a complete range of accessories for the autobody professionals.

GRIT STANDARDS

INDASA coated abrasives are manufactured using the highest quality raw materials and in compliance with FEPA grit standards.

FEPA-P Grit	Average diameter (micra)

P2000	10.3 ±0.8
P2500	8.4 ±0.5

¹ Cotton
² Polyester

SAFETY RECOMMENDATIONS

Ensure that the working area is clean and tidy.

Wear protective ear and eye equipment.

Wear suitable respiratory equipment when working with hazardous materials.

Wear protective gloves.

Follow the correct procedures for handling and storage.

Make sure that the abrasive selected is suitable for its intended use.

Avoid clogging to ensure the abrasive works efficiently.

Let the abrasive stop naturally, not by applying pressure to its surface.

As the majority of coated abrasive backings are hygroscopic, they cause different superficial tensions with the resin layer.

This phenomenon might cause positive (convex) or negative (concave) flexing.

In order to maintain the abrasives in their natural form (straight), it is recommended that they be stored at a temperature between 64-70 F and a relative humidity of 55-60%.

INDASA RHYNOSOFT PRE-CUT

**A TRUE
ESSENTIAL IN
YOUR
WORKSHOP**

SPONGES & WEB

RHYNOSOFT PRE-CUT

Sponge Sanding → Adapts to contours for precision sanding and finishing

High density sponge → Improves the user sanding experience

Single pad → Perfect for hand sanding

Cut innovation → Eliminates sanding marks

Pre-cut roll → Provides easy handling and roll efficiency

Two pads → Machine sand size - 115 x280mm sander

Grit print on sponge → For better identification

Innovative perforation → High tensile strength

SEALANTS, ADHESIVES & COATINGS

Comprehensive range of performance body repair materials for key areas of panel sealing and bonding, anti-corrosion, plastic repair and aerosol coatings.
Refer to technical data sheet for product specifications.

CARTRIDGE SEALANTS

POLYURETHANE SEALANT

High strength adhesive sealant → Excellent bonding properties
Fast drying moisture cure → Can be painted when fully dry
Resistant to UV, water and oil → Forms a tough permanently flexible seal

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472576	Black	310ml	12	12.98
472583	Grey		12	12.98
472590	White		12	12.98

MS POLYMER SEALANT

High solids sealant adhesive → Superior strength adhesive properties
Fast drying moisture cure → Can be painted wet on wet
Isocyanate and silicone free → Compliant use in the bodyshop

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472637	Black	290ml	12	21.23
472644	White		12	21.23

MS SPRAYABLE SEALANT

High solids sealant adhesive → Superior strength adhesive properties
Extremely versatile → Apply as spray seam, extruded bead, bush seam and spray coating
Textured spray finish → Replicates OEM finish on joints and bulkheads

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472675	Grey	290ml	12	27.37
472682	Beige		12	27.37

CAR BODY SEALANT

Synthetic rubber base general purpose seam sealant
Good adhesion to bare or painted metal
Quick drying and paintable when cured

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472552	Grey	310ml	12	12.12

DIRECT GLAZING SEALANT

One part PU sealant adhesive for bonded windscreen
 Excellent adhesive bond to glass, metal and painted surfaces
 High shear strength and UV resistance
 Use in conjunction with cleaner and primer

PART #	TYPE	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472620	Sealant	Black	310ml	1	24.80
472606	Cleaner	-	30ml	1	13.47
472569	Primer	Black	30ml	12	17.62

BRUSHABLE SEAM SEALANT

Synthetic based sealant for welded or bolted seams
 Replicates OEM finish on overlap seams and joints
 Brushes out without stringing or sagging

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472545	Grey	1kg	12	30.09

PLASTIC REPAIR ADHESIVES

PLASTIC REPAIR ADHESIVE

2 part PU adhesive → Exceptional bond strength
 1 or 5 minute application/work time → High speed cure rate
 Automatic one step mixing nozzle → Easy extrusion and beading
 Repair and bond on rigid and semi rigid plastics

PART #	TYPE	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472767	1 min	Black	50ml	1	41.18
472774	1 min	Clear		1	41.18
493953	5 min	Black		1	41.18

POWER WELD

2 part methacrylate adhesive → Excellent shear strength
 Fast fixing and cure rate → Can be painted after 1 hour
 Automatic one step mixing nozzle → Easy extrusion and beading
 Bonds & seals simultaneously → Provides for excellent corrosion resistance

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472781	Black	50ml	1	37.45

ANTI-CORROSION

UNDERBODY COATING

- Bitumen based protective coating → Spray gun application
- Excellent adhesion properties → Long term resistance to corrosive elements
- Flexible/elastic coating → Protects against stone chip penetration
- Available in aerosol for small repair & touch up coverage
- Wax based protective coating → Spray gun application

PART #	TYPE	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472200	Bitumen	Black	1lt	12	12.67
472217	Wax			12	26.03
472132	Aerosol		500ml	12	17.15

STONE CHIP COATING

- Synthetic rubber based protective coating → Replicates OEM finish
- Excellent adhesion properties → Long term resistance to stone chip penetration
- Textured finish achieved by application → Can be painted once fully cured
- Available in aerosol for small repair & touch up coverage

PART #	TYPE	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472514	Tin	Black	1lt	12	21.25
472521	Tin	Grey		12	21.25
472538	Tin	White		12	21.25
472484	Aerosol	Black	500ml	12	25.06
472491	Aerosol	Grey		12	25.06
472507	Aerosol	White		12	25.06

CAVITY WAX

- Wax coating for cavity & box section bodywork → Resistant to corrosive elements
- Excellent penetration → Maximum coverage & protection
- Amber or clear → Replicates OEM finish
- Available in aerosol for small repair & touch up coverage

PART #	TYPE	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472118	Aerosol	Amber	500ml	12	19.76
472149	Tin	Amber	1lt	12	23.05
472156	Tin	Amber	5lt	4	113.56
472125	Aerosol	Clear	500ml	12	19.76
472170	Tin	Clear	1lt	12	23.05
472187	Tin	Clear	5lt	4	113.56

SOUND DEADENING

Self adhesive sound absorption pads replicate OEM finish
 Easy to cut to shape & apply
 Flame retardant compliance FMVS302

PART #	TYPE	SIZE	PACK SIZE	CTN QTY	PRICE PER PACK
461273	Pattern	500 x 500mm	4	1	54.44
461280		200 x 500mm	10	1	54.44

DRY GUIDE COAT

Maximises coverage on filler/primer → Effective detection of surface imperfections
 Black powder coating → No masking, no overspray, no drying time
 Supplied with hand applicator → Quick & easy to apply

PART #	PACK SIZE	CTN QTY	PRICE PER CTN
528983	100g	6	131.88

AEROSOL COATINGS

HIGH BUILD PRIMER AEROSOL

Versatile one pack acrylic based primer
Excellent adhesion to prepared substrates
Quick drying

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472927	Dark grey	500ml	12	21.93
472934	Grey		12	21.93
472941	White		12	21.93

HIGH BUILD PRIMER PLUS+

Superb build and scratch filling properties
Excellent adhesion
Ideal for bare metal rub through repair
Suitable for plastics (no need for adhesion promoter)

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
598610	White	500ml	12	23.01
598627	Grey		12	23.01
598634	Dark Grey		12	23.01
598641	Black		12	23.01

ETCH PRIMER AEROSOL

Primer & adhesion promoter for bare metal
Excellent anti-corrosion properties
High build for superior coverage

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472965	Grey	400ml	12	21.93

ZINC WELD PRIMER AEROSOL

Zinc rich weldable primer for mig or spot weld applications
Excellent anti-corrosion properties
Fast drying

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
472972	Grey	400ml	12	19.91

ACRYLIC TOPCOAT AEROSOL

Hard, durable topcoat paint finish
 Excellent build and coverage
 Quick drying
 High gloss clearcoat
 Fade out thinner for blend repairs

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
481844	Gloss Black		12	8.75
481851	Satin Black		12	8.75
481868	Matt Black	500ml	12	8.75
481875	Wheel Silver		12	8.75
472910	Clearcoat		12	21.93

PLASTIC COATING AEROSOL

Refinish coatings for plastic components
 Concise range covers popular colours
 Compatible with compliant refinish systems

PART #	COLOUR	PACK SIZE	CTN QTY	PRICE PER PACK
481899	Light Grey		12	21.99
481905	Mid Grey		12	21.99

EVERCOAT®

Rage OPTEX body filler changes colour from pink to light green, letting the bodyshop technician know the repair is properly catalysed and ready to sand.

A BODY FILLER THAT LETS YOU KNOW WHEN TO SAND

Properly catalyzed body filler means a better repair with less rework, saving bodyshops time and money.

Rage OPTEX colour change technology combines with Evercoat's leading body filler performance to maximise technician efficiency to the bodyshop process.

ECORESIN™

The world's first environmentally friendly resin which also delivers superior sanding capabilities. Evercoat leads the world in "green" technology.

For more information on how Rage OPTEX technology can improve your repair process contact INDASA Abrasives.

TERMS & CONDITIONS

1. GENERAL

All Tenders for products, materials or equipment to be supplied by or through INDASA Abrasives (UK) Ltd (hereinafter referred to as “the Company”) are offered subject to the following express terms and conditions, which shall be deemed to exclude all conditions, warranties and guarantees implied or provided by common law, statute, trade, custom or otherwise including the Conditions of Purchase (if any) notified to the Company by the Customer.

2. PRICES

- 2.01** Unless otherwise expressly agreed in writing by us all quotations, prices and conditions are subject to revision without notice. The Company reserves the right to increase prices at any time prior to acceptance of any order placed.
- 2.02** In the case of the products of the Company’s manufacture, except where expressly stated otherwise, a shortage or surplus, charged pro rata, not exceeding 10 per cent will be considered due execution of any order.

3. DELIVERY

- 3.01** Where contracts provide for a single delivery goods shall be delivered and accepted as soon as ready.
- 3.02** Where contracts provide for deferred deliveries such deliveries shall be accepted as specified in the contract (or as soon thereafter as ready) provided that all deliveries shall be accepted within six months from the date specified for the first delivery. In the event of failure to accept any delivery the balance remaining undelivered shall be invoiced (payment for such balance immediately thereupon becoming due) and storage costs charged to Customer’s account, the goods being held at Customer’s risk.
- 3.03** The times given for delivery are approximate and without guarantee, and the Company whilst using its best endeavours to comply with these times accept no liability to failure to deliver any goods on a stated date.
- 3.04** All goods are delivered in accordance with the rules determined by ICC Incoterms 2010 Delivered at Place (DAP) unless otherwise stated.

4. DEFECTS

The Company will at its option either repair free of charge or replace free of charge any product which is found to the satisfaction of the Company to be defective as a result of faulty design, manufacture or workmanship provided that:

- (a) The Products are returned properly packed carriage paid to the Company at the Customer’s risk within a period of 1 month from the date of delivery; and
- (b) where the products are made to Customer’s specification, defects are not a result of errors in such specification;
- (c) the Products have not been modified in any way by the Customer; and
- (d) the Products have not been used for any purpose other than that for which they were designed or otherwise mis-used.

Repaired or replaced goods will be returned free of charge to destinations on the mainland of the United Kingdom or delivered F.O.B. U.K. Port for other destinations.

5. PAYMENT

- 5.01** Payment shall be net cash not later than end of month following date of invoice.
- 5.02** The Company reserves the right to charge interest at the rate of 2% per annum above the base rate of National Westminster Bank Limited from time to time ruling on any sums from time to time payable to the Company in accordance with the provisions of 5.01.
- 5.03** In the event of a Customer failing to make payment against any invoice at the proper time the Company shall be entitled to delay, suspend or cancel any further deliveries to the Customer to retain any of that Customer’s goods in its hands without prejudice to any other rights to which the Company may be entitled.

6. RETENTION OF TITLE

The risk in the goods shall pass from the seller to the buyer upon delivery of such goods to the buyer. However, notwithstanding delivery and the passing of risk in the goods, title and property in the goods, including full legal and beneficial ownership, shall not pass to the buyer until the seller has received in cash or cleared funds payment in full for all goods delivered to the buyer under this and all other contracts between the seller and the buyer for which payment of the full price of the goods thereunder has not been paid.

7. CLAIMS AND DISPUTES

- 7.01** Any Customer wishing to make a claim alleging shortage in weight or numbers in respect of products, materials or equipment supplied by the Company shall give notice in writing within three days of delivery of the goods stating fully the grounds of that claim.
- 7.02** Claims for non delivery shall be made in writing within one month of the invoice date. The Company will obtain and supply proof of delivery (P.O.D) on written request received within the period stipulated above.
- 7.03** The Contract or Sale between the Company and the Customer shall be adjudicated in the event of dispute in accordance with the Law of England.

8. FORCE MAJEURE

The performance of all contracts is subject to variation or cancellation by the Company owing to any Act of God, war, strikes, lock-outs, fire, flood, drought, tempest or any other cause beyond the control of the Company or owing to the inability by the Company to procure materials required in the manufacture of products to be supplied by the Company under the contract.
