Complete protection solutions for Work- & Paintshop

***Complete protection  
solutions for Work- & Paintshop:***

***[www.better-protection.com](http://www.better-protection.com)  
[www.lackierfolie.com](http://www.lackierfolie.com)***

Founded in 1924 as a traditionally-run family company, Horn & Bauer is today the leading expert in production and finishing of functional protection and packaging film.

We are a medium-sized, international company with more than 350 employees.

Quality, environmental protection and the safeness of our clients and staff are our main focus.

## Protection films for an advanced customer service

The range of protection films offered by Horn & Bauer is produced by our patented environmental friendly polythene mixtures.

### ● Arguments for the ecologically beneficial raw material polythene:

1. Polythene is a high-grade finished mineral oil product. It is an organic material, whose composition is similar to plant fibres on the basis of carbon and hydrogen.
2. Producing polythene is environmental friendly. Neither contaminants nor dangerous vapours are released. Polythene is a by-product of the mineral oil preparation.
3. The energy needs when producing polythene films are definitely lower in comparison to other packaging materials (e.g. paper). Therefore, resources are saved.
4. Our products of polythene do not contain softeners or heavy metal. They are physiologically safe.
5. Polythenes are usable several times due to their high ultimate strength and wet strength. Therefore, they are environmentally friendly.

### ● Environmentally friendly and easy to dispose

- Polythene films are ground water neutral.
- Horn & Bauer uses only anti-pollution, heavy metal free polythene mixtures for the production of the protective films.
- The films can be used to create energy or can be recycled and reused.

## Workshop Range

### ● The convenient Dispenser Box System

- optimum protection against dust from the first to the last piece
- Single dispensing due to punched slit. All other pieces stay protected in the dispenser box.
- No attraction of dust by the dispenser box. The wall of the workshop remains clean.
- safe transport, easy redispach
- easy storage, stackable

### ● Integral 5 in 1

- **Elemente 1 and 2 – Seat cover and Floor mat in one**
  - perfect fit of seat cover and floor mat due to non-slip inner surface
  - floor mat will not slip because it is connected to seat cover
  - protects against oil, dirt and water
  - dimensions: seat cover 880 x 1500 mm, floor mat 510 x 700 mm, considerably larger than usual in the market
- **Element 3 – non-slip steering wheel cover**
  - special blue-transparent film
  - very stretchy
  - suitable for car steering wheels
  - dimension: 490 x 150 mm
- **Element 4 – Gear Lever Protection**
  - white protection bag
  - can be used universally
  - adapts to all types of gear levers
- **Element 5 – Hand Brake Protection**
  - white protection bag
  - can be used universally
  - adapts to all types of hand brakes
- white polythene with print "Perfect Service"  
personalised print available minimum order quantity 50 rolls

1 dispenser box  
roll 200 sets

317 240

### ● Integral 4 in 1

- **Element 1 – Non-Slip Integral Seat Protection**
  - tailored head rest gives better rear view vision
  - protects against oil, dirt and water
  - dimensions: seat cover 880 x 1500 mm
- **Element 2 – Extra Large Integral Floor Protection**
  - floor mat will not slip because it is connected to seat cover and does not interfere with the pedals
  - protects against oil, dirt and water
  - dimensions: floor mat 510 x 700 mm, considerably larger than usual in the market
- **Element 3 – Gear Lever Protection**
  - white protection bag
  - can be used universally, adapts to all types of gear levers
