PARTNERSHIP

THE KOVAX FAMILY

At Kovax, we have been working hard to build a worldwide network of partners in the past years. This has resulted in a strong community, with partners in 45 countries. Together, we share knowledge, we develop new products and we are committed to building a strong and sustainable future for everyone.

Our commitment to perfection is visible in both our product range and the relationships we build with our customers. We always strive to be one step ahead, asking ourselves how we can make tomorrow's work easier and more efficient for you. With a foundation of mutual respect and trusted shared values, we create new business opportunities and long-term collaborations together.

JAPANESE ROOTS

With our mother company being situated in Japan, aiming for the highest quality is deeply rooted in our DNA.

CIRCLE OF TOGETHERNESS

In the Japanese culture, perfection is symbolized by a circle. This so-called Ensō is a recurring element in our design, supporting our commitment to perfection and to our Kovax family.

INNOVATION IS KEY

In today's quick changing world, we are always looking for new opportunities to expand our business. Together with our partners, we keep developing to grow our businesses and support each other's successes.

INTERFACE PAD

DISCOVER OUR INTERFACE PADS SCAN AND WATCH!

BUILDING A SUSTAINABLE FUTURE TOGETHER

Unlike foam backed abrasives, interface pads have an extremely long lifespan. So you don't have to constantly replace them. This not only saves you time and materials, but it also reduces waste and helps protect the planet. In addition, interface pads offer multiple options in your sanding process. For example, you can choose a hard pad for more aggressiveness or a soft pad for more uniformity or to sand curves. This way you can personalize your sanding process!

BENEFITS

- BETTER FOR THE ENVIRONMENT
- DURABLE AND LAST FOR A LONG TIME
- OFFER MORE OPTIONS IN TERMS OF AGGRESSIVENESS AND UNIFORMITY

At Kovax, sustainability is at the heart of everything we do. We installed solar panels on our roof, isolated our walls and where we can, we adjust our products to make them more durable and sustainable. Our OrganicTolekit is made from renewable resources, reducing the need for frequent replacements. By focusing on products that last, we minimize waste and help protect the environment. We believe in creating solutions that not only meet your needs but also contribute to a greener future. With Kovax, you can trust that every product is thoughtfully designed for sustainability and performance. Together, we can make a positive impact on the planet.

TOLEKIT SUITCASE

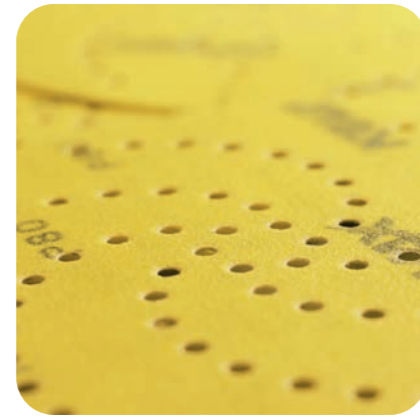

GARUDA
80 - 400

THE BEST RESULT WITH ULTIMATE CUTTING POWER.

ADVANTAGES GARUDA

Made from extremely strong and flexible materials, Garuda delivers unmatched performance with its sharp and precisely shaped grits. Sand with more aggressiveness, while maintaining exceptional durability.

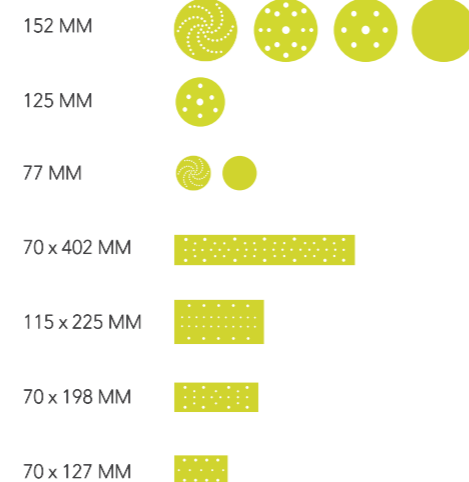

MAXFILM
P60 - P600

MAXFILM STANDS FOR MAXIMUM DURABILITY FOR ALL YOUR SANDING WORK, FROM SANDING BARE METAL TO SANDING PRIMER.

ADVANTAGES MAXFILM

The film backing of Maxfilm allows a more direct contact with the sanding surface and prevents the grains to drop into the backing. In combination with its double anti-clogging coating this results in a significantly longer lifetime. The printed P-value on top of the disc ensures maximum ease of use.

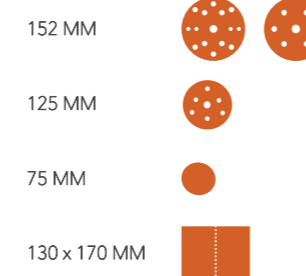

SUPER ASSILEX
K240 - K1500

THE UNIQUE WAY OF DRY SANDING, UNIFORMITY AND FLEXIBILITY THAT AMAZE.

ADVANTAGES SUPER ASSILEX

The innovative latex backing and the unique grain structure result in extremely uniform and shallow scratches. The products of Super Assilex are supporting you during your daily sanding jobs due to Super Assilex' outstanding cutting performance and speed. This results in more efficiency. Super Assilex prevents potential problems in the rest of the sanding process.

MAGIC DISC
320 - 500

SPECIALLY DEVELOPED SANDING DISC FOR E-COAT AND VERY HARD, MATT CLEAR COAT SANDING.

ADVANTAGES MAGIC DISC

The Magic Disc with its film backing, the new developed diamond grain and the new generation 2.0 anti-clogging coating, has an unbelievable long lifetime on hard coatings. High aggressiveness comes together with very uniform scratches.

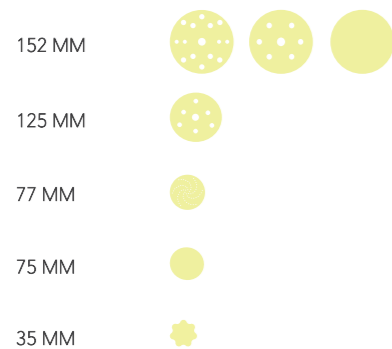

YELLOW FILM
P800 - P2000

THE NUMBER ONE SOLUTION FOR BLENDING ZONES, WITH A GUARANTEED PERFECTLY, NON-VISIBLE TRANSITION FROM OLD TO NEW CLEAR COAT.

ADVANTAGES YELLOW FILM

The film backing in combination with an anti-burning coating allows a cool sanding process. Consequently, burning spots can be brought to a minimum and the risk of deep scratches is reduced significantly. Yellow Film is ideal for top coat sanding, removal of imperfections and removal of orange peel structure. The main markets of Yellow Film are the automotive sector and the wood industry.

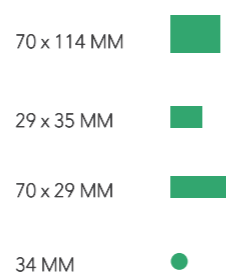

TOLECUT
K800 - K3000

THE WORLD CHAMPION WHEN IT COMES TO DRY IMPERFECTION REMOVAL.

ADVANTAGES TOLECUT

Tolecut is a dry sanding system. Without the use of water it is always possible to see how far the imperfection has been removed. Because of the constant visible result, the risk to sand through the topcoat is reduced to a minimum. Tolecut is unique in its cutting power and due to its flexibility it is also suitable for concave and convex areas. The ease of use makes it a must have for every dent professional.

SURFLATT
K800 - K2000

THE NUMBER ONE SOLUTION FOR FAST RESULTS AND A FLAWLESS FINISH, ESPECIALLY ON LARGE SURFACES.

ADVANTAGES SURFLATT

Increase your efficiency when sanding large surfaces with Surflatt. You will be able to remove a high number of imperfections in no time, create seamless transitions between old and new clear coats and remove orange peel effortlessly. Surflatt has been developed for wood markets and industry.

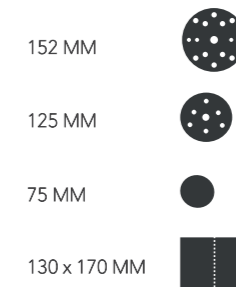

BUFLEX DRY
K2000 - K3000

THE FINEST ABRASIVE FOR MAXIMUM POLISH TIME REDUCTION.

ADVANTAGES BUFLEX DRY

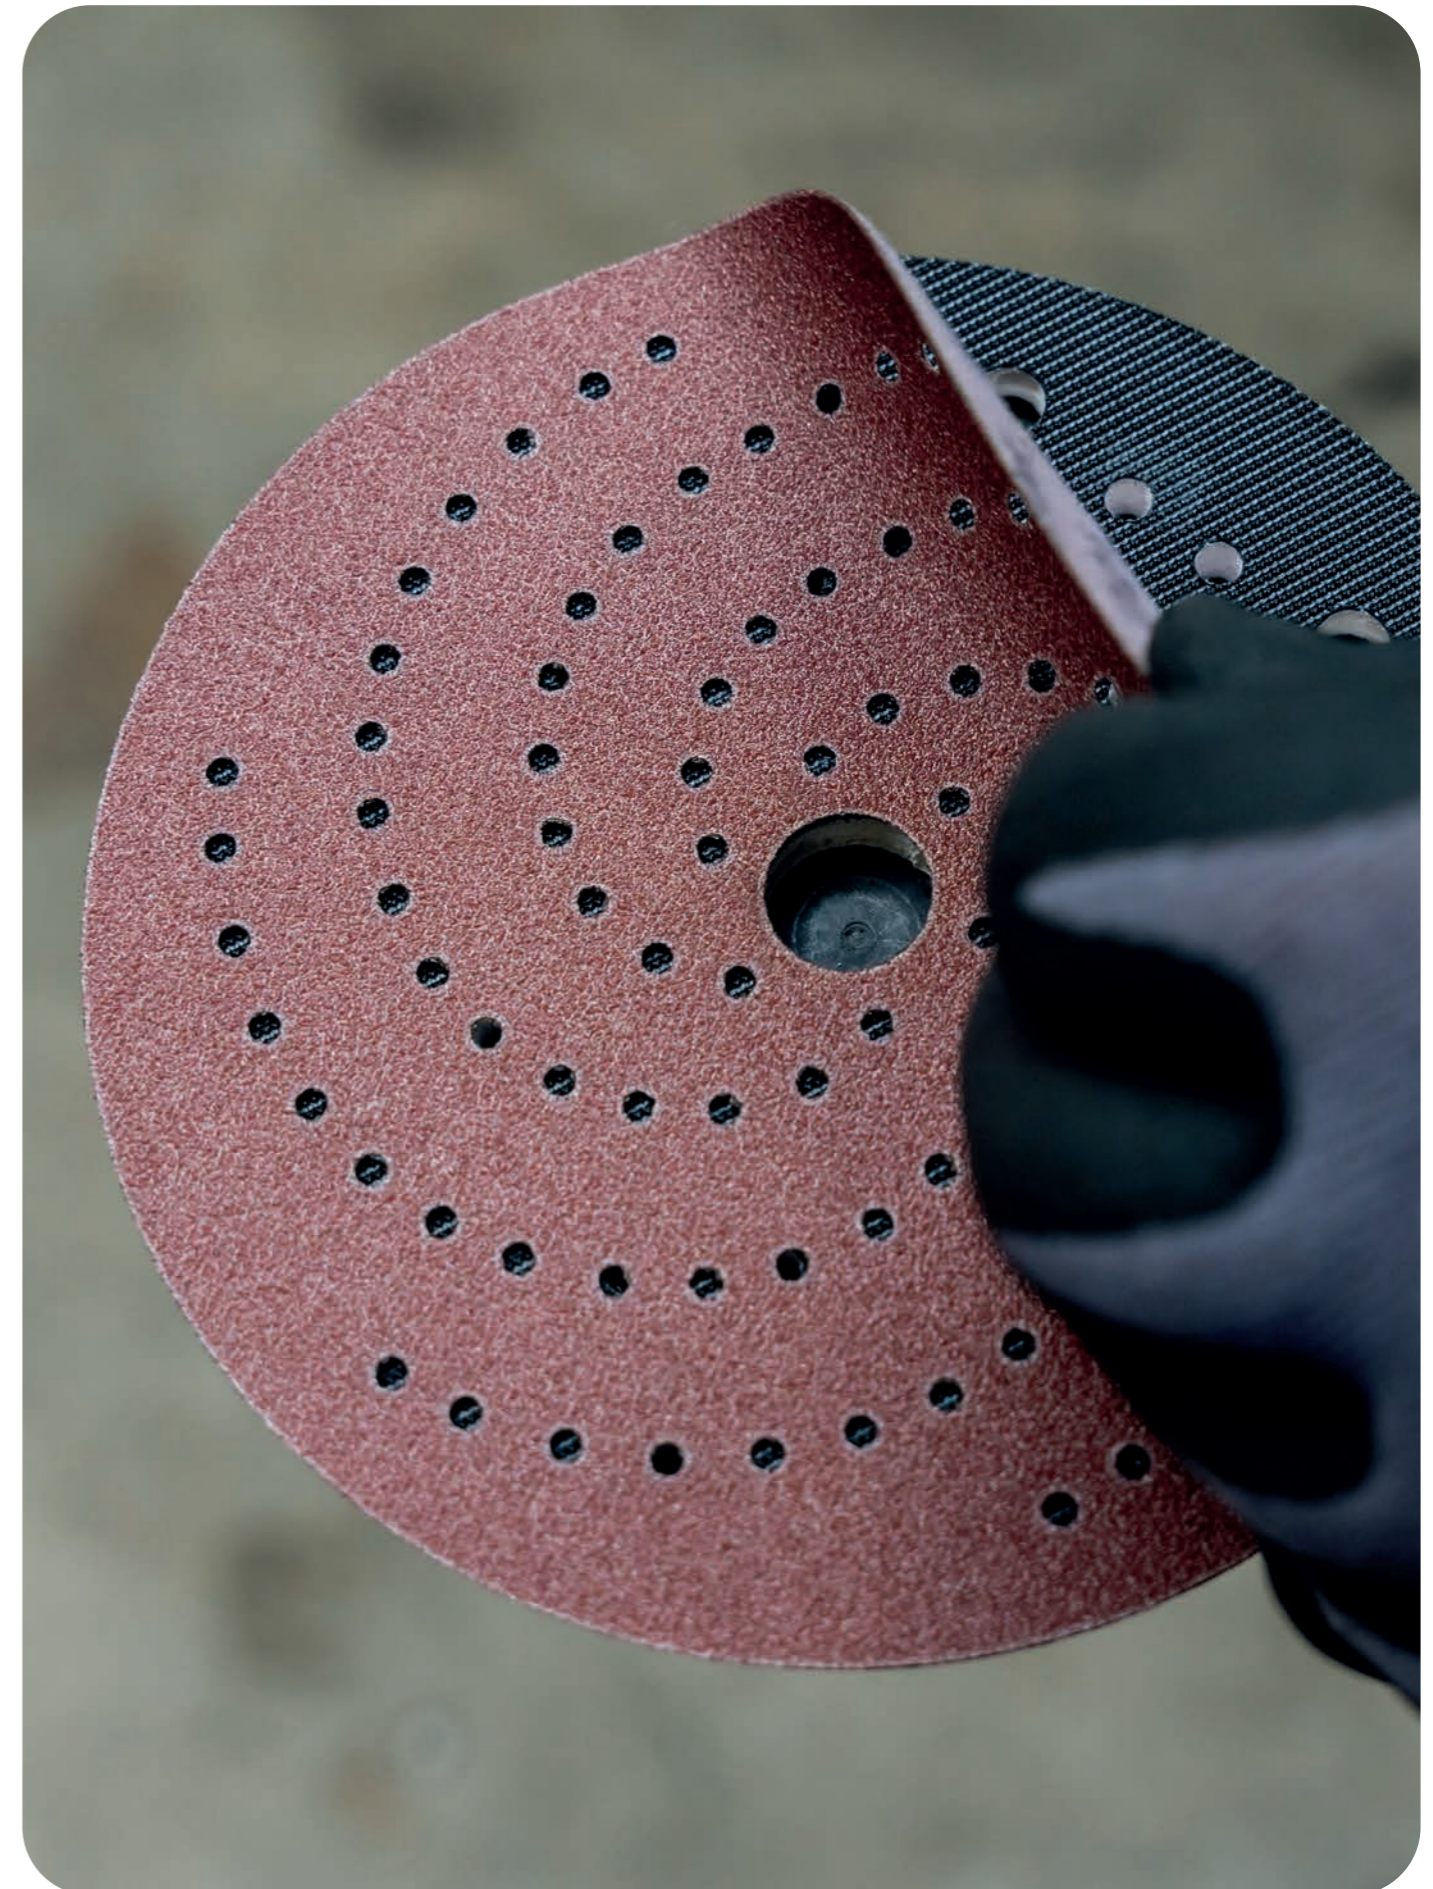

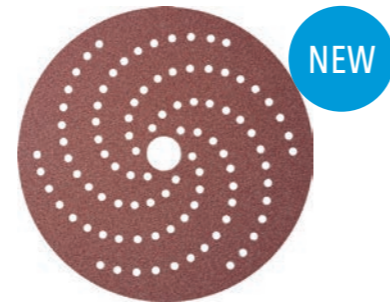

The ultra flexible, innovative latex backing with a unique grain structure ensures extremely uniform scratches. The especially developed female-female velcro ensures process safety and prevents scratches caused by hard velcro. Buflex Dry retains the coating structure.

THE POWER OF INNOVATION

At Kovax, innovation drives everything we do. After years of extensive research, testing and development, we introduce the Kovax Robotic Solutions - a new step in automated sanding and polishing.

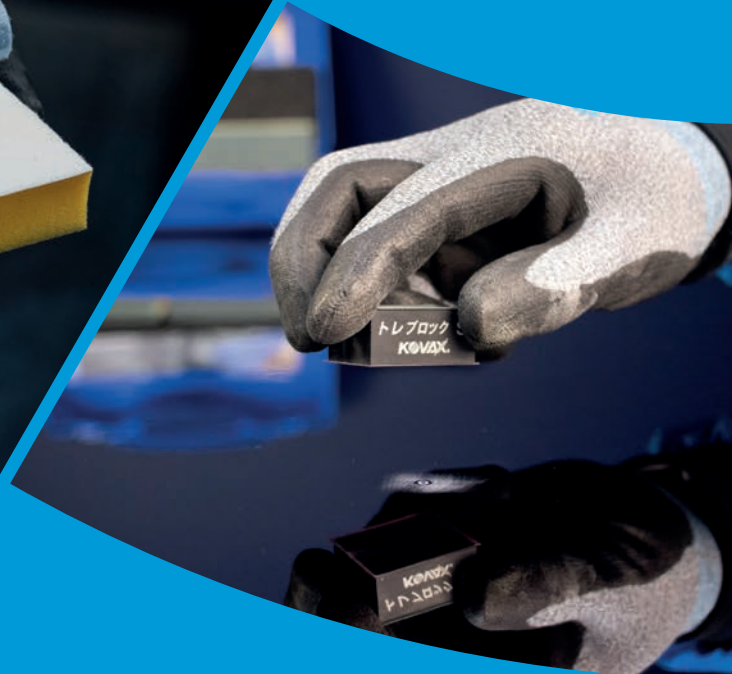

Achieving the perfect automated solution requires more than advanced technologies; it demands in-depth knowledge of the sanding process. At Kovax, we combine decades of experience in sanding with the latest advancements in robotic technology to deliver customized solutions that work for you. We recognize that every sanding challenge is unique.

At the European Robotic Solutions Centre, we offer real-world testing and a deep analyses into your specific needs. With hands-on trials with your sanding objects, we identify the optimal combination of robotic, machine and manual sanding for your requirements. Our goal is simple: to provide you with tailored solutions that maximize your productivity and optimize your workflow.

Whether you're exploring automation for the first time or optimizing existing workflows, we are here to support you with the right knowledge and expertise.

Are you ready to discover the future of automated solutions?
