Surface Finishing Solutions

# About Mirka

With decades of experience, Mirka Ltd is a world leader in surface finishing technology. Mirka offers a wide range of solutions for surface finishing and precision sanding. We specialize in total solutions in which the abrasives are supplemented by our innovatively designed machines and polishing compounds.

Mirka's journey in dust-free sanding started over 20 years ago. Our revolutionary net abrasive, the Mirka Abranet® was the start of a new dust-free philosophy that expanded to cover new abrasives and power tools, all for one purpose: to make sanding better.

Mirka develops and manufactures advanced sanding and polishing machines, providing outstanding ergonomic and functional benefits to users. These innovatively designed tools combined with a range of effective, high-quality accessories, give Mirka's customers unmatched access to a complete sanding solution to meet their individual needs.

Mirka is a globally expanding company with 18 subsidiaries located in Europe, Middle East, North and South America as well as Asia. More than 97% of our products are exported and sold in over 100 countries.

## Warranty registration 2 + 1 year

Mirka power tools have a two-year warranty starting from the date of purchase and covering defects in material and workmanship. By registering your Mirka power tool within 30 days from purchase you will obtain an additional one-year warranty. NOTE! If the tool is continuously used in industrial applications, the warranty period is one year.

To keep your tool warranty valid, the tool needs to be used, maintained and operated in compliance with the safety and operating instructions. However, if a problem occurs with your Mirka power tool, caused either by a manufacturing defect of the material or by workmanship, Mirka will repair your power tool free of charge in accordance with the warranty terms and conditions.

### Abralon®

<b>Grain</b>	Silicon carbide	
<b>Bonding</b>	Special resin	
<b>Backing</b>	Knitted fabric on foam	
<b>Grit range</b>	180, 360, 500, 600, 1000, 2000, 3000, 4000	
<b>Characteristics</b>	Extreme flexibility Quickly creates a smooth surface finish even on contours Accelerates polishing operations	  

### Abralon® J3

<b>Grain</b>	Silicon carbide	
<b>Bonding</b>	Special resin	
<b>Backing</b>	Knitted fabric on foam	
<b>Grit range</b>	360, 500, 600, 1000, 2000, 3000, 4000	
<b>Characteristics</b>	Consistent sanding pattern Flexible 3 mm foam thickness	

### Abralon® J5

<b>Grain</b>	Silicon carbide	
<b>Bonding</b>	Special resin	
<b>Backing</b>	Knitted fabric on foam	
<b>Grit range</b>	360, 500, 600, 1000, 2000, 3000, 4000	
<b>Characteristics</b>	Flexible Particularly suitable for uneven surfaces 5 mm foam thickness	

### Abranet®

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyamid net	
<b>Grit range</b>	80, 100, 120, 150, 180, 240, 320, 360, 400, 800	
<b>Characteristics</b>	Practically dust-free sanding Cleaner and healthier work environment Long life-time and great profitability	 

### Abranet® Ace

<b>Grain</b>	Ceramic	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyamid net / Polyester net	
<b>Grit range</b>	80, 120, 150, 180, 240, 320, 400, 500, 600, 800, 1000	
<b>Characteristics</b>	Practically dust-free sanding Cleaner and healthier work environment Long lifetime even on hard surfaces	 

### Abranet® Ace HD

<b>Grain</b>	Ceramic	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyamid net	
<b>Grit range</b>	40, 60, 80, 120	
<b>Characteristics</b>	Practically dust-free sanding High aggressiveness and removal rate Very long lifetime	

### Abranet® Max

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyamid net	
<b>Grit range</b>	80, 100, 120, 150, 180, 220, 240	
<b>Characteristics</b>	High removal rate thanks to hardened aluminium oxide grains Cool touch	

### Abrasive Yellow Basic

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	E-paper/D-paper	
<b>Grit range</b>	P40-P180, P240	
<b>Characteristics</b>	Durable all-round abrasive product Strong paper backing that resist wear and tear	

**Alox**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Cotton cloth	
<b>Grit range</b>	60, 80, 100, 120, 150, 180, 240, 320, 400	
<b>Characteristics</b>	High aggressiveness Robust material	

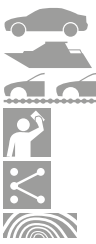

**Avomax Antistatic**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Antistatic T-paper/F-paper	
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 200, 240, 320	
<b>Characteristics</b>	For soft materials Long lifetime Sturdy anti-static paper	

**Ecowet**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	C-latex paper	
<b>Grit range</b>	60, 80, 120, 180, 240, 320, 400, 600, 800, 1000, 1200, 1500, 2000, 2500	
<b>Characteristics</b>	Waterproof abrasive, ideal for wet sanding Long product life Fast sanding Excellent flexibility	

**Gold**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	D-paper/C-paper	
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 400, 500, 600, 800	
<b>Characteristics</b>	Flexible and aggressive All-round high quality product Very good price-performance ratio	

**Gold Soft**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	C-paper with PE foam	
<b>Grit range</b>	320, 500, 800	
<b>Characteristics</b>	Flexible Soft edges For profile grinding Optimal foam strength	

**Autonet**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyamid net / Polyester net	
<b>Grit range</b>	80, 120, 150, 180, 240, 320, 400, 500, 600, 800	
<b>Characteristics</b>	Practically dust-free sanding Cleaner and healthier work environment High performance and a long lifespan	

**Coarse Cut**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin/Progressive Bond™	
<b>Backing</b>	Specially reinforced F-paper	
<b>Grit range</b>	36, 40, 60, 80, 100, 120, 150	
<b>Characteristics</b>	Very durable edges High stock removal Optimal grain adhesion	

**Galaxy**

<b>Grain</b>	Ceramic/Aluminium oxide	
<b>Bonding</b>	Low VOC resin system	
<b>Backing</b>	Polyester film	
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 220, 20, 320, 400, 500, 600, 800, 1000, 1200, 1500, 2000	
<b>Characteristics</b>	Self-sharpening ceramic grains Excellent clogging resistance Multi purpose product, suitable of both soft and hard materials	

**Gold Max**

<b>Grain</b>	Blue fired aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Antistatic E-paper	
<b>Grit range</b>	240, 320, 400, 500, 600, 800	
<b>Characteristics</b>	Good strength and stability in paper High cut rate even on harder paints Offers a smooth surface finish	

**Goldflex Soft**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	A-latex paper, PE foam	
<b>Grit range</b>	150, 180, 220, 240, 320, 400, 500, 600, 800, 1000	
<b>Characteristics</b>	Flexible thanks to foam backing Specially suitable for edges and profile sanding	

**Hiolit JCA2A0**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Brown	
<b>Backing</b>	J-cloth cotton	
<b>Grit range</b>	P60-P400	
<b>Characteristics</b>	Flexible cloth backing for smooth profile sanding. Fast cut and long lifespan.	

**Hiolit XO**

<b>Grain</b>	Blue fired aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyester cloth, X-weight cotton cloth	
<b>Grit range</b>	36, 40, 50, 60, 80, 100, 120, 150, 180, 240	
<b>Characteristics</b>	Universal abrasive for belt sanding Excellent edge wear resistance and durability	

**Iridium®**

<b>Grain</b>	Ceramic/Aluminium oxide	
<b>Bonding</b>	Low VOC resin system	
<b>Backing</b>	Latex paper, /C-Paper	
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 220, 240, 320, 400, 500, 600	
<b>Characteristics</b>	No clogging and great dust-extraction Long lifetime Noticeably sharper grain	

**Iridium® SR**

<b>Grain</b>	Silicon carbide	
<b>Bonding</b>	Slurry	
<b>Backing</b>	3 MIL Polyester film	
<b>Grit range</b>	3µm (P5000), 5µm (P3000), 7µm (P2500)	
<b>Characteristics</b>	Excellent consistency Extremely long use life Robust backing Fast and easy to polish out	

**Jepuflex Antistatic**

<b>Grain</b>	Aluminium oxide/Silicon carbide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Antistatic T-paper/F-paper	
<b>Grit range</b>	36, 40, 50, 60, 80, 400, 100, 120, 150, 180, 240, 320, 400	
<b>Characteristics</b>	Optimal for sanding hard wood All-round product that works well on metal, plastic and lacquer. Very durable.	

**Microstar**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Polyester film	
<b>Grit range</b>	800, 1000, 1200, 1500, 2000, 2500	
<b>Characteristics</b>	Produces a fine scratch pattern Intended for dry sanding only Designed for matting and paint rectification	

**Mirka® File belt CER**

<b>Grain</b>	Ceramic	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	Y Polyester	
<b>Grit range</b>	36-120	
<b>Characteristics</b>	Ideal for tough sanding applications The ceramic grains provides a high removal rate at low and medium pressure Long life time and good surface finish	

**Mirka® File belt ZIR**

<b>Grain</b>	Zirconia	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	YY Polyester Cloth	
<b>Grit range</b>	24-120	
<b>Characteristics</b>	Ideal for stainless metal sanding applications The zirconia grains provides a high removal rate and good surface finish	

**Mirka Yellow Abrasive Soft**

<b>Grain</b>	Aluminium oxide	
<b>Bonding</b>	Resin over resin	
<b>Backing</b>	C-paper with PE foam	
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 240	
<b>Characteristics</b>	Ideal for plaster sanding High stock removal and long lifetime Optimized suction	

**Mirlon®**

<b>Grain</b>	Aluminium oxide (GP, VF)/Silicon carbide (UF, MF)	
<b>Bonding</b>	Resin	
<b>Backing</b>	Non-woven	
<b>Grit range</b>	General Purpose - 320, Very Fine - 360, Ultra Fine - 1500, Micro Fine - 2000	
<b>Characteristics</b>	High flexibility More power through innovative spreading For both wet and dry sanding Strong and long-lasting	

**Mirlon Total®**

<b>Grain</b>	Aluminium oxide (VF)/Silicon carbide (XF, UF, MF)
<b>Bonding</b>	Resin
<b>Backing</b>	Non-woven
<b>Grit range</b>	Very Fine - 360, Xtra Fine - 800, Ultra Fine - 1500, Micro Fine - 2500
<b>Characteristics</b>	High flexibility, Strong and long-lasting More power through innovative spreading For both wet and dry sanding

**Novastar®**

<b>Grain</b>	Ceramic/Aluminium oxide
<b>Bonding</b>	Low VOC resin system
<b>Backing</b>	Polyester film
<b>Grit range</b>	80, 120, 150, 180, 240, 320, 400, 500, 600
<b>Characteristics</b>	Grains stays sharp as clogging is prevented Great durability and excellent edge wear resistance Fully waterproof

**Novastar® SR**

<b>Grain</b>	Aluminium oxide (SR3), Silicon carbide (SR5)
<b>Bonding</b>	Low VOC resin system
<b>Backing</b>	Polyester film
<b>Grit range</b>	3 micron (eqv. to 5000) and 5 micron (eqv. to 3000)
<b>Characteristics</b>	Excellent finish Durable and flexible Minimal loading and pilling

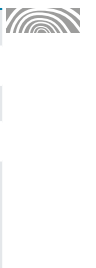

**Q.Silver®**

<b>Grain</b>	Aluminium oxide P80 - P500, Silicon carbide P600 - P1500
<b>Bonding</b>	Resin over resin
<b>Backing</b>	D-paper/C-paper/B-paper
<b>Grit range</b>	80, 100, 120, 150, 180, 220, 240, 320, 400, 500, 600, 800, 1000, 1200, 1500
<b>Characteristics</b>	Optimal aggressiveness Fast removal Long lifetime

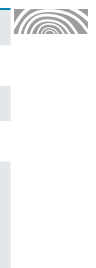

**Sica Closed**

<b>Grain</b>	Silicon carbide
<b>Bonding</b>	Resin over resin/Antistatic
<b>Backing</b>	Antistatic F-paper
<b>Grit range</b>	80, 100, 120, 150, 180, 220
<b>Characteristics</b>	For belt sanding and sanding of MDF and other materials containing mineral debris Fully antistatic

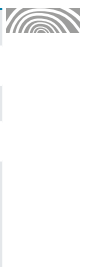

**Sica Open**

<b>Grain</b>	Silicon carbide
<b>Bonding</b>	Resin over resin/Antistatic
<b>Backing</b>	Antistatic F-paper
<b>Grit range</b>	80, 120, 150, 180
<b>Characteristics</b>	For sanding soft, resin-rich wood types Limit dust loading and prevent clogging Fully antistatic

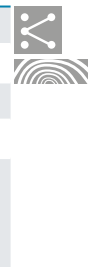

**Sica Fine Stearat**

<b>Grain</b>	Silicon carbide
<b>Bonding</b>	Stearate-coated resin over resin/Antistatic
<b>Backing</b>	Antistatic E-paper
<b>Grit range</b>	240 - 320, 400 - 800
<b>Characteristics</b>	Produces minimal dust load High-quality surface finish Fully antistatic

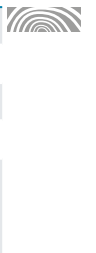

**Ultimax®**

<b>Grain</b>	Aluminium oxide
<b>Bonding</b>	Resin over resin
<b>Backing</b>	Antistatic T-paper/F-paper
<b>Grit range</b>	40, 60, 80, 100, 120, 150, 180, 240, 320
<b>Characteristics</b>	Low heat development Particularly suitable for hardwood and veneer Long lifetime Very even sanding pattern

**Unimax®**

<b>Grain</b>	Aluminium oxide
<b>Bonding</b>	Resin over resin/Antistatic
<b>Backing</b>	Antistatic F-Paper
<b>Grit range</b>	80, 100, 120, 150, 180, 220
<b>Characteristics</b>	For soft and hard wood types Fully antistatic

**WPF Pro**

<b>Grain</b>	Silicon carbide
<b>Bonding</b>	Resin over resin
<b>Backing</b>	C-latex paper
<b>Grit range</b>	P60-P3000
<b>Characteristics</b>	High-quality waterproof abrasive with a lasting aggressive cut Both curl resistant and non-absorbent Excellent flexibility

## Hiolit JCA2A0

NEW!

- Highly adaptable to contoured workpieces and radiuses
- Improved lifetime
- High stock removal
- Suitable for soft woods, hard woods, MDF, soft metals as brass and aluminium

*(Replacing Hiolit JF)*

## Hiolit YPZ1A0

NEW!

- High stock removal and lifetime due to zirconia grains
- Wet and dry sanding applications
- Suitable for flatsanding and deburring on steel and alloy materials

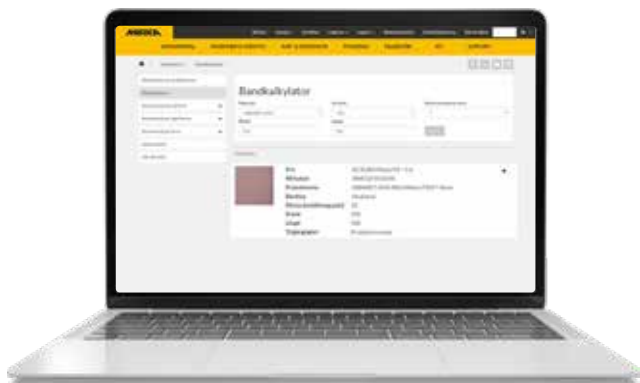

*(Replacing Mirkon)*

Iridium is a premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer.

Iridium is a premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer.

**Quick Disc ALO**

High performance multi-purpose economy aluminium oxide Quick Disc, ideal for general applications. Especially suitable for deburring. The typical TR (SL3) assembly and disassembly system of the disc is fast for increase productivity, substantially reducing working time. Maximum operating speed 19 000 rpm.

**Quick Disc CER**

High quality CER quick lock disc with self-sharpening ceramic grains for maximum stock removal. The discs features top size and medium-closed coating for reducing temperature in the grinding zone, thus avoiding burn marks, and Y Polyester backing. The ceramic quick discs are also highly resistant for wear for a longer lifetime.

8061000021AX 6416868953633	Mirlon Soft R/G 6/Pack	29 pcs	1 pcs	

**Mirlon Soft White**

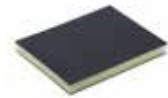

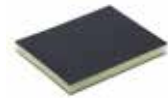

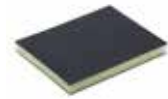

For cleaning, oiling and polishing of sensitive oiled or waxed surfaces. Double-sided usage. Absorbent foam to retain liquids (as oil or detergents) on one side, and non-woven material without abrasive grains on the other side. The flexible material is optimized for manual usage. The products are packed airtight. To prevent the product to dry out, it needs to be re-packed airtight after opening.

**Mirlon Soft R/G**

For sanding and cleaning. Double-sided usage - coarse and fine in one product. The absorbent foam in the middle makes the Mirlon Soft ideal for cleaning with cleaning agents. And the flexible material is optimized for manual usage. The products are packed airtight. To prevent the product to dry out, it needs to be re-packed airtight after opening.

Mirka is a recognized world leader in developing advanced surface finishing technologies. Thanks to its simplicity and speed, Mirka's Optimized Surface Preparation System is set to replace traditional thinking. The system is truly unique thanks to an innovative combination of high-tech abrasives, tools and processes that cannot be compared to anything else on the market today.

**Mirka's OSP system** focus on speed, control, simplicity and repeatability instantly makes traditional methods inefficient and obsolete. Standardized repair process is one of the keys to get the smooth workflow in the body shop. With the OSP system it is a clear and simple process which impacts to keep the focus and achieve the goal for the day – correct accomplished repairs on time.

### Some of the benefits:

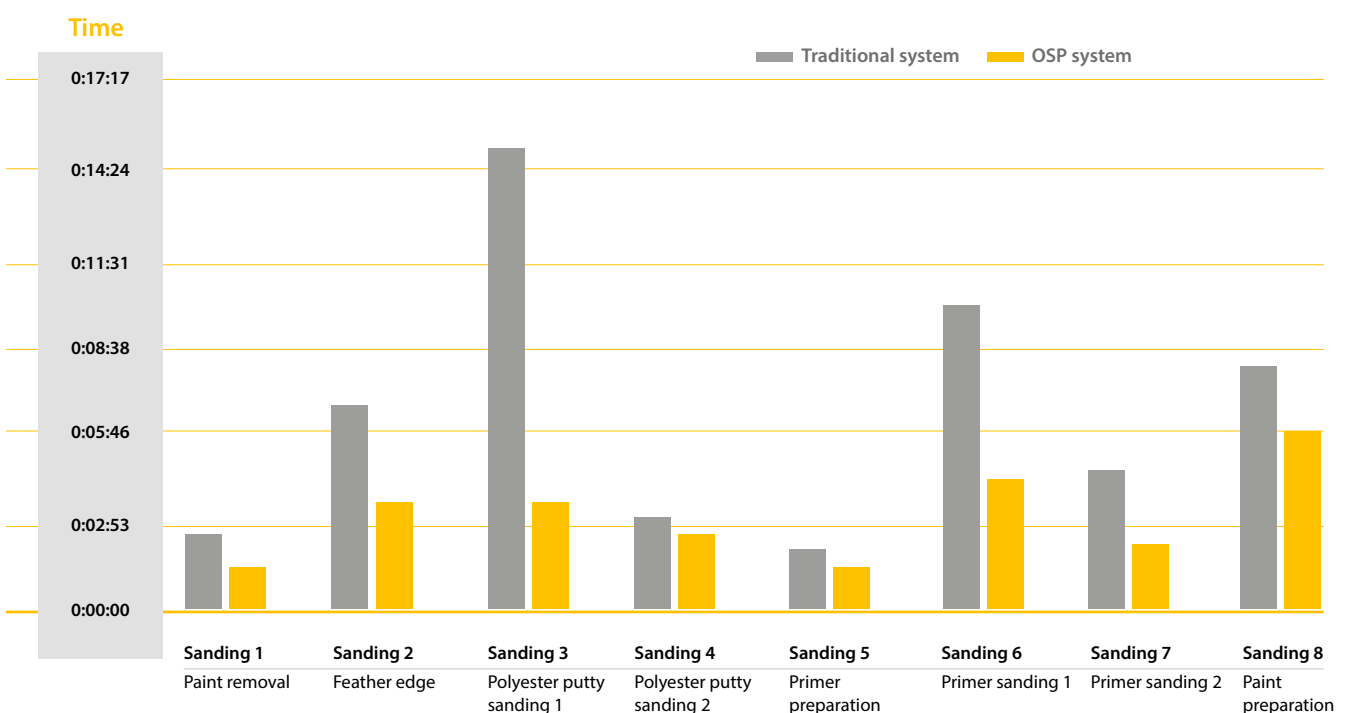

- **Increased sanding speed and efficiency** saves time on every job which boosts productivity and profitability.
- **Standardized, step-by-step processes** means predictable, consistent quality on every repair.
- **Dust free** – the workshop stays cleaner which helps reduce the risk of dust inclusions in paintwork and minimizes the need for de-nibbing.
- **Healthier** workshop environment for staff.

Time studies performed in body shops show a time saving in sanding process of **30%** thanks to the OSP system.

## Sanding time comparison

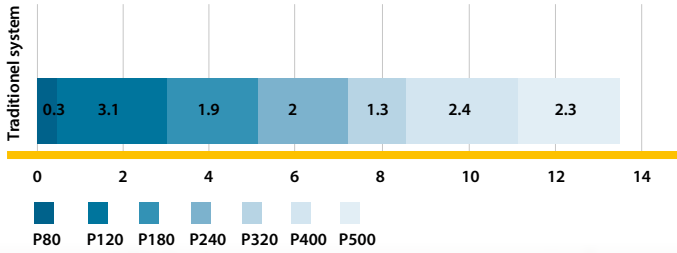

OSP vs. Traditional system

The simplified OSP system gives a reduced abrasive material consumption.  
Facts based on studies in body shops show an abrasive material decrease of **32%**.

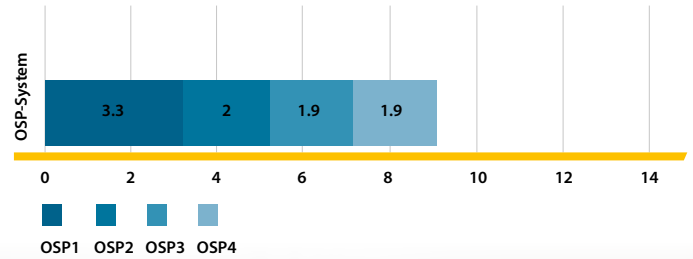

**Abrasive consumption**

– Traditional system: Average 13,3 pcs

**Abrasive consumption**

– OSP system: Average 9 pcs

## The OSP **Small to Medium** Repair Process

### Paint removal/Feather edge

#### OSP PRODUCT

#### USE:

- Disc or strip No 1 for paint removal.
- Disc or strip No 2 for feather edge.

### Polyester filler

#### USE:

- Strip No 1 to level polyester filler.
- Strip No 2 for final leveling and as first step on fine polyester filler.

### Primer preparation

#### USE:

- Disc No 3 to prepare the repaired area for primer by reducing scratches and expanding the feather edge.

#### OSP PRODUCT

### Finishing

#### USE:

- Disc or strip No 3 to level structure on primer.

#### USE:

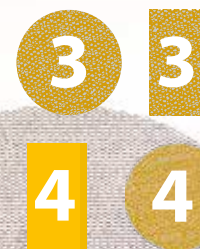

- Soft pad No 4 for hard-to-reach areas.

#### USE:

- Finalize the sanding with disc No 4.

#### OSP PRODUCT

- **Mirka OSP-1:** 150mm, 77mm paint removal disc, 70x198 mm body filler strip, 70mmx10m and 115mmx10m rolls
- **Mirka OSP-2:** 150mm, 77mm feather edge disc, 70x198 mm body filler strip, 70mmx10 m and 115mmx10m rolls
- **Mirka OSP-3:** 150mm, 77mm primer preparation disc, 70x198mm primer and body filler strip, 70mmx10m and 115mmx10m rolls
- **Mirka OSP-4:** 150mm, 77mm finishing disc and Mirka OSP-4 115x125mm hand finishing pad

The OSP **Spot Repair** Process

Paint removal and Feather edge sanding

**USE:**  
• Strip or disc 77 mm No 2 and 3  
Speed 8000 rpm.

**OSP PRODUCT**

Polyester filler

**USE:**  
• Strip or disc 77 mm No 3  
Speed 7000 rpm. Apply Dry Guide Coat.

Primer preparation

**USE:**  
• Disc 77 mm No 4 with Net interface.  
Speed 7000 rpm.

**OSP PRODUCT**

Primer Sanding

**USE:**  
• Disc 77 mm No 4 with Net interface. Speed 7000 rpm.

Paint preparation sanding

**USE:**  
• Abralon 77 mm grit 1000 for feather edge and grit 2000 for fade out.

**OSP PRODUCT**

**ABRALON®**

- **Mirka OSP-2:** 77mm feather edge disc, 70x198mm body filler strip, 70mmx10m and 115mmx10m rolls
- **Mirka OSP-3:** 77mm primer preparation disc, 70x198mm primer and body filler strip, 70mmx10 m and 115mmx10m rolls
- **Mirka OSP-4:** 77mm finishing disc and Abralon 1000 and 2000

\* OSP Strip cut in half.

## Mirka® Golden Finish System

A unique, fast and simple post paint solution

- Standardised step-by-step process ensures consistent high quality.
- Sanding in two steps for a smooth, uniform surface.
- Polishing in two steps for the perfect high-gloss finish.
- Includes microproduct for sanding small defects and micro fiber cloth for finishing touches.
- The special elastic foam gives a high cut performance and a long lifetime.
- The waffle shape removes all remaining haze and leaves a very high gloss.
- Recommended tools: Mirka DEROS 650CV or Mirka DEROS 325CV for sanding, Mirka AOS-B 130NV for spot repairs and Mirka PS 1437 or Mirka AROP-B for polishing.

## Sanding & Polishing – Dust nibs

### DEFECT REMOVAL

**USE:** Golden Finish SR disc. Apply water to both disc and surface. Use Mirka finessing damper. Sand 3–5 seconds, wipe and check visually. Repeat operation until defect is removed.

### POLISHING

**USE:** Remove sanding scratches in first polishing step with Polarshine 20 in combination with Golden Finish Pad-1. Remove holograms and to achieve a high gloss finish use Polarshine 5 in combination with Golden Finish Pad-2.

**TOOL AND TECHNIQUE:** For sanding use Mirka cordless sander AOS-B or AROS-B. Keep tool in an straight angle with light pressure against surface during sanding. For polishing use Mirka polisher AROP-B 312NV or AP 300NV. Adjust polisher to medium speed. Use circular movement for both sanding and polishing.

### PRODUCTS

## Sanding & Polishing – Large & small areas

### DEFECT REMOVAL

**USE:** Golden Finish Disc-1 to remove defect. Use 5 mm interface pad to reduce cutting force and for contoured areas.

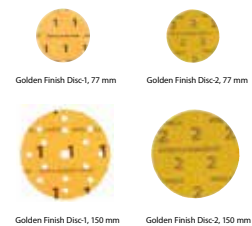

### CONDITIONING OF SCRATCHES

**USE:** Golden Finish Disc-2. Damp sanding. Spray water on both disc and surface. Sand over surface 3–4 times to achieve a uniform scratch pattern.

**TOOL AND TECHNIQUE:** Use DEROS 650CV to sand large areas and DEROS 325CV for small areas. For gentle sanding use tool at speed 6.000 rpm. Keep tool flat on surface during sanding operation.

### PRODUCTS

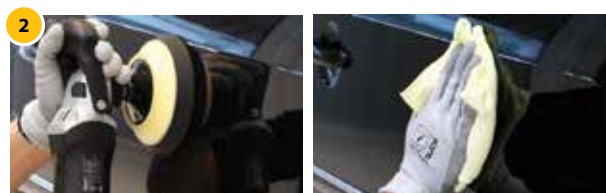

### POLISHING / SCRATCH REMOVAL

**USE:** Polarshine 20 in combination with Golden Finish Pad-1.

### POLISHING / HOLOGRAM REMOVAL

**USE:** Polarshine 5 in combination with Golden Finish Pad-2. Polish until most of compound residue is removed. Keep pad flat against surface. Final wiping with a clean Mirka yellow micro fiber cleaning cloth.

**TOOL AND TECHNIQUE:** Use Mirka PS1437 rotary polisher. Adjust tool speed at maximum 1.300 rpm. Use small amount of compound which is consumed on a focused area. Add more if needed or if starts to dry out during operation.

## The Polarshine Marine Cleaning Range

Get ready for the boating season with Mirka's Polarshine® Marine Cleaning products! The Polarshine Marine Cleaning range offers a complete package for washing, cleaning, finishing and preserving a boat's gelcoat surface. Combined with other Mirka Polarshine products it is a great solution for keeping your boat looking presentable from season to season.

Mirka's Polarshine Marine product range is designed for effortless and effective cleaning of surface stains in boats. It includes products from shampooing to deep cleaning, from finishing to protective coating. Polarshine Marine is a great companion set for Mirka's Polarshine polishing products.

Use the Marine Cleaning products together with other Mirka products, such as the award-winning power tools and effective abrasives to bring a shine on an older gelcoat surface.

Scan the QR code to read more about the products in the Marine Cleaning range. Watch the video about how you can refurbish your boat using the Mirka method. Remember to apply a protective shield after the final finishing so that the shine lasts all season long.

**POLARSHINE® MARINE DEEP CLEAN**

Mirkacode EAN Code	Product Name	Transport Unit	Pack	EAN Code
7998000311PM 6416868952544	Polarshine Marine Deep Clean 3L	5 pcs	1pc	
7998002011PM 6416868952513	Polarshine Marine Deep Clean 20L	1 pc	1 pc	

**NEW!**

Polarshine Marine Deep Clean is an effective, deep cleaning washing concentrate for cleaning your boat's waterline and hull, effectively dissolving discoloration and stubborn dirt. Deep Clean removes stains from the boat's surface, caused by the likes of aquatic and bottom vegetation as well as removing discoloration, rust stains and fish blood. The product is suitable for gelcoat, fiberglass, paint, plastic, lacquer and other acid resistant surfaces.

**POLARSHINE® MARINE DEEP CLEAN**

Mirkacode EAN Code	Product Name	Transport Unit	Pack	EAN Code
7998100311PM 6416868952537	Polarshine Marine Boat Wash 3L	5 pcs	1pc	
7998102011PM 6416868952520	Polarshine Marine Boat Wash 20L	1 pc	1 pc	

**NEW!**

High-quality boat shampoo suitable for all kinds of surfaces that can be washed with water, such as aluminum, gelcoat, lacquer, wooden and metal and painted surfaces. The effective surfactant formulation dissolves stubborn dirt, such as grease, oil, soot, fuel stains and other contaminants gently from all surfaces. Marine Boat Wash boat shampoo is gentle on sensitive material, and aluminum and chrome surfaces and other surfaces that easily darken retain their luster thanks to the low pH-value.

**POLARSHINE® MARINE FINAL FINISH**

Mirkacode EAN Code	Product Name	Transport Unit	Pack	EAN Code
7998300501PM 6416868952551	Polarshine Marine Final Finish 500ml	12 pcs	1pc	
7998300311PM 6416868952568	Polarshine Marine Final Finish 3L	5 pcs	1 pc	

**NEW!**

A high-quality silicon-free cleaning and finishing agent for all boat surfaces. Works efficiently to remove any excess cleaning detergents such as polishing paste, fingerprints, soot and other impurities. Polarshine Marine Final Finish is also suitable for finishing with a cleaning cloth after washing the surface. The product is safe to use on all surfaces. It does not damage coated surfaces and is also safe for use with synthetic waxes.

**POLARSHINE® MARINE SHIELD**

Mirkacode EAN Code	Product Name	Transport Unit	Pack	EAN Code
7998200251PM 6416868952490	Polarshine Marine Shield 250ml	1 pc	1pc	

**NEW!**

Polarshine® Marine Shield features a ceramic coating, ensuring surfaces are protected from UV radiation, salt water, oxidation, acid rain, bird droppings and other impurities. The Polarshine Marine Shield coating strongly repels impurities and is resistant to strong detergents, allowing you to carry out thorough seasonal washing after the boating season. The surfactant components of the product prevent the water droplets from sticking to the surface, creating a hydrophobic and very high gloss, stress-resistant surface.

## Deeper gloss for darker surfaces.

To achieve deep, hologram free gloss on black or dark surfaces, the polishing compound must be up to the job. The **Polarshine 12 Black** by Mirka quickly and permanently removes scratches from P2000 or finer, leaving a high gloss hologram free finish. It is especially designed to perform well on dark surfaces such as exposed carbon fibre, so that the material can give its best with a deep dark gloss.

## Key features

- Compact and very light electric sander
- The high efficiency brushless motor exerts plenty of power
- The compact and very low profile gives a high maneuverability
- Excellent ergonomic design ensures that the sander can be used for long periods without fatigue
- Integrated vibration sensor and Bluetooth low energy technology
- Compatible with myMirka app is available on App Store and Google Play

## Mirka® Electric Polishers – PS 1437 & PS 1524

Mirka PS1437 Polisher 150mm

Mirka PS 1524 Polisher 180mm

Product Name	Mirkacode EAN Code	EAN Code
Mirka PS 1437 Polisher 150mm	8991300111 6416868929553	6416868 929553
Mirka PS 1524 Polisher 180mm	8991400111 6416868929560	6416868 929560

Backing pad is not included with the polisher, must be ordered separately.

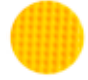

### Key features

- Mirka® PS 1524 Polisher is ideal for all kinds of polishing tasks, from compounding and polishing & fine polishing to buffing larger surfaces. This polisher has a powerful motor with good cooling properties. The electronic variable speed maintains constant speed under load for consistent performance. Mirka® PS 1524 Polisher has a spindle lock for quick and easy pad changing.
- The Mirka® PS 1437 Polisher features a powerful, high torque electric motor. The rotational speed can be pre-selected and precision adjusted with a step-less switch. The bail handle and a side handle ensure a better grip and a spindle lock makes pad changes easy. It's an excellent tool for polishing smaller surfaces and is designed to be used with a maximum 150 mm pad.

## Mirka® Deco Sander – Telescopic sanding tool

### Key features

- Makes the sanding of walls and ceilings faster, more effective and dust-free
- Package includes the sanding tool and a telescopic tube which extends up to 2.3 metres
- The tool is attached to the telescopic tube via a flexible joint which lets it adjust in any direction to sit flat against the sanding surface
- The tool is drawn towards the surface when sanding so the operator only need to apply light pressure
- Dust is removed through holes in the sanding tool directly to a Dust Extractor cleaner which makes the job easier and quicker because time isn't spent protecting the surroundings from dust contamination

NEW

NEW

### Mirka® LEROS

### Mirka® LEROS-S

## Key features

- The lightest brushless Wall and Ceiling Sander in its class (3,5 kg and 3,2 kg)
- Thanks to 180° flexibility\* on the sanding head the operator can reach the surface from a better angle and use more ergonomic working positions.
- The 5 mm random orbital movement contributes to a smoother finish without leaving any deep visible scratches as with rotating movement.
- T-shaped handle allows the operator to use different working positions and this puts less strain on the operator's back and shoulders.
- The fixation point of the sanding head is close to the surface and contributes to more stable sanding.

## Mirka® AOS – Angle Orbital Sander

Mirka AOS 32 mm

Product Name	Mirkacode EAN Code	EAN Code
Mirka AOS 130NV 32mm Orbit 3,0	8992330111 6416868931297	 6 416868 931297

NV= Non Vacuum

## Key features

- Orbital spot repair tool for use with Mirka SR finessing discs
- The tool can be used for denibbing in OEM, ART and Wood applications together with Polarstar SR or Novastar SR
- The AOS 130NV tool with a 3 mm orbit is oscillating which results in a finer finish and an easier polishing process

Technical data	AOS 130NV
Weight	600 g
Power	357 W
Work pressure (bar)	6.2 mm
Air consumption	509 (l/min)
Speed (rpm)	8500/min
Noise level LpA	75 db(A)

Mirka PBS 13NV 13x457mm Non Vacuum	8995134571 6416868945560	 6 416868 945560	NEW!

Key features

- Low vibrations and low noise level make this belt sander enjoyable to work with
- Simple and smooth speed adjustment with a regulator on the top - no tool needed
- Quick and effortless to change the abrasive belt thanks to the tension mechanism
- Comfortable to hold, with a rubber coated handle that does not get cold
- Easy to set the angle
- Hex key integrated in the handle thus always at hand

## Key features

- Light weight, comfortable and balanced and has an ergonomic design
- The wide 2500-20000 rpm adjustability of tool speed makes it especially suitable for a wide range of jobs
- Can be used with a variety of accessories in grinding and sanding metal, cleaning after welding, surface conditioning cutting and deburring and paint removal
- Low noise levels and no disturbing cable or hose
- Long usage time, up to 16 hours, for spot repairs
- Economic to use; energy efficient and quick-charging intelligent lithium-ion battery
- Integrated vibration sensor and Bluetooth low energy technology
- Compatible with myMirka app that's available on App Store and Google Play

Technical data	ANGOS ARG-B 200

## MIRKA® DUST EXTRACTORS

Mirka Dust Extractors have been tested to meet the requirements of each dust class according to IEC 60335-2-69 (worldwide) and by EN 60335-2-69 (European wide standards. Further health and safety regulations may apply in different countries. Please follow applicable laws regarding dust collection and disposal in your country.

It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Please ensure that you use a dust extractor that is fit for your intended purpose. Read the safety labels on the extractor. The dust extractor must be protected from rain and wet conditions – other than picking up liquids – and against UV radiation.

Service and repairs must be done at Mirka authorised service centers for warranty to remain valid. Mirka does not accept liability for damage caused by improper use of a dust extractor nor for the use of a dust extractor that is not suitable for the intended purpose.

### Mirka® Dust Extractor 1242 M AFC

#### Easily accessible flat filter

Filter can easily be reached through an opening in the back.

#### Automatic Filter Cleaning

Keeps the filter automatically clean for better performance and longer lifetime.

#### High volume container

42 litres for applications where a lot of material is extracted.

#### Large wheels

Easy manoeuvrability on uneven surfaces.

#### High performance motor and turbine

1200 W motor and 1-stage turbine creates 250 mbar pressure and 4500 l/min airflow.

#### Cable storage

Durable strap keeping the cable in place during transportation.

#### M-class

Proven performance for higher user protection.

#### Hose storage

The hose is always ready for use.

#### Air intake filter

Longer lifetime of motor.

#### AutoStart function

Dust extractor runs only when the power tool is running.

#### Airflow sensor

Indicates when airspeed is below 20 m/s.

#### Hose inlet plug

Eliminates the risk of dust leaking out during transportation.

#### Advantages with automatic filter cleaning

- Less maintenance
- Constant performance
- Possibility to work without dust bags

## DUST CLASSES

**Dust class L** (low risk). For professional users who only vacuum low risk dust such as household dust, soil or sand, sanding dust from soft wood or solid surfaces (such as corian). The occupational exposure limit for this kind of dust is  $> 1 \text{ mg/m}^3$ . The dust extractor must be able to retain 99% of the dust.

**Dust class M** (medium risk) For professional users within collision repair, construction, and woodworking that sand for instance hard wood, plaster, putty, latex and oil paints, etc. that cause medium risk dust. The occupational exposure limit (OEL) for this kind of dust is  $> 0.1 \text{ mg/m}^3$ . This means that the dust extractor must be able to retain 99.9% of the dust. The air flow has to be minimum  $V_{\text{min}}=20 \text{ m/s}$  in the suction hose.

**Dust class H** (high risk) is the highest safety class. You must use H-class in an environment with possible exposure to directly hazardous dust, where the dust is carcinogenic / pathogenic or allergenic. These can be, for example, lead compounds, mercury, platinum and cadmium.

## EXPOSURE LIMIT

Different types of dust with different exposure limits require different degrees of filtration in the Dust Extractor to ensure good working conditions. For example, hardwood has a maximum allowable dust exposure of  $\geq 0.1 \text{ mg / m}^3$ , and therefore you need to use a Dust Extractor that has a filtration system that's  $> 99.9\%$  (M-class).

Classification	Filtration degree	Maximum exposure limit
<b>L</b>	$> 99 \%$	$> 1 \text{ mg/m}^3$
<b>M</b>	$> 99.9 \%$	$\geq 0.1 \text{ mg/m}^3$
<b>H</b>	$> 99.995 \%$	$< 0.1 \text{ mg/m}^3$

## HEPA FILTER

For even better filtration, you can install a HEPA filter (High Efficiency Particulate Air) in the vacuum cleaner. The HEPA filter fits Mirka's Dust Extractor in the 1230 series. By installing a HEPA filter, you get a three-step filtration: Dust bag - Standard filter - HEPA filter. Note that the addition of this filter does not make Mirka's Dust Extractor 1230 H-rated, even if the filter itself meets the requirements of HEPA class H13. Note that in addition to the HEPA filter (891162), the HEPA filter cover (891163) is required for initial installation.

### L class and M class dust extractors may not be used for:

- Hazardous dust with OEL values  $< 1 \text{ mg/m}^3$
- Hot materials (burning cigarettes, hot ash, etc.)
- Flammable, explosive, aggressive liquids (e.g. petrol, solvents, acids, alkalis etc.)
- Flammable, explosive dust (e.g. magnesium or aluminium dust etc.)

Please observe that the dust suction hose is ordered separately.

## Key features

- Professional dust extractors with high performance motors and turbines
- AutoStart function increases the lifetime of the motor and reduces noise
- 1230/1242 range has flat tops with space for storage and large wheels for manoeuvrability
- Top-of-the-range models have Automatic Filter Cleaning for convenience and consistent performance
- Hose and cable storage for more comfortable transportation
- Wide range of accessories; for instance HEPA filter for optimal air filtration (purchased separately)

Mirka's pad savers are designed to protect the backing pad from wear and tear, when sanding aggressively and continuously with net products. These cost effective pad savers, placed between the backing pad and the sanding disc, should be changed regularly. The pad savers prolong the life of the backing pad.

**Pad Saver user instruction**

1. Match the pad saver hole pattern to the backing pad by locating the matching holes on the pad saver to the locating spots on the backing pad.
2. Apply and press the pad saver firmly to the backing pad. Fasten the abrasive to the pad saver.
3. Place the sander on the object to be sanded and then start the sanding machine.

Mirka is offering interface pads for both net and traditional abrasives. By using an interface pad you will get a softer sanding result. The interface is placed between the backing pad and the abrasive.

Mirkacode EAN Code	Product Name	Transport Unit	Pack	EAN Code
8294720111 6416868944099	Vacuum Block Disc 77mm, 5/Pack	100 pcs	5 pcs	
8295620111 6416868944112	Vacuum Block Disc 150mm, 5/Pack	100 pcs	5 pcs	
8291720111 6416868953664	Vacuum Block Disc 178mm, 5/Pack	100 pcs	5 pcs	

The vacuum block disc protects your sander and dust extraction system by preventing moisture from entering the sander. We recommend using vacuum block discs if vacuum dust extraction cannot be disconnected during wet sanding.

This Net Interface allows to use non-woven products on power tools. It provides great dust extraction and the mushroom shaped hooks makes the non-woven product stick well to the interface and prevents the fibers from getting stuck in the backing pad. The interface removes the need to use velour on a non-woven product and thereby enables usage of both Mirlon and Mirlon Total, as discs or sheets when doing tool-sanding. The unique construction is based on a patented spacer backing.

### File Board 70x400mm Grip 53H Flexible Yellow

The low profile and the durable construction of the file board give a very good control over the sanding process. The handle enables a flexible and ergonomic grip. The performance is excellent in combination with Mirka® Net stripes. The flexible board is adjustable for any concave or convex shapes. The board has yellow dot marks that indicate the straight shape and red dot marks indicating the maximum shape. To ensure dust-free sanding the hand sanding block simply needs to be connected by hose to a dust extraction system.

# Track Your Vibration Exposure with the **myMirka®** App

## What Is myMirka?

The starting point of myMirka came from offering a simple way of looking after your hands when sanding and polishing. We have added an integrated vibration sensor and Bluetooth® low energy technology to our most popular electric sanders and cordless polishers and developed an app to follow-up the measurements.

With the myMirka app, you can measure vibrations and track your daily vibration exposure. You can also view the tool's battery level and health. Experience surface finishing in a new way. Mirka's digital solutions are just a click away.

### Mirka® DEROS, DEOS and LEROS

1. Connect the power cord to a mains outlet.
2. Press and hold the + button while switching on the power button.
3. The middle LED lights up (green), to indicate that Bluetooth is active.

### Mirka® AOS-B, AROS-B, ARP-B, and AROP-B

1. Press and hold the + button while pressing the trigger button.
2. The middle LED light is flashing, to indicate that Bluetooth is active.

### Pairing your device

1. Press the "Add tool" button on myMirka.
2. Select the tool with which you want to connect.
3. You are now ready to start exploring myMirka features!

Download myMirka app

# Modular Trolley parts

## Abrasive storage trays

For vertical placement of full packs. Angled holders improve position for access. Magnetic attachment makes fitting and repositioning easy.

## Large tool drawer

Keep your tools safe and secure in this tool drawer.

## Personal drawer

Smaller drawer for personal items. Allows quick access; lockable

## Waste bag and cable holder

Waste bag holder for easy and direct waste disposal. Behind the waste bag is a cable holder.

## Locking device

Drawers can be locked via a push-rod system. The pushrod system locks all the drawers simultaneously.

## Two abrasive/tool drawers

The perfect space for Abrasive packages or smaller tools.

## Deeper drawer

A deeper drawer that suits large Polarshine bottles, for example.

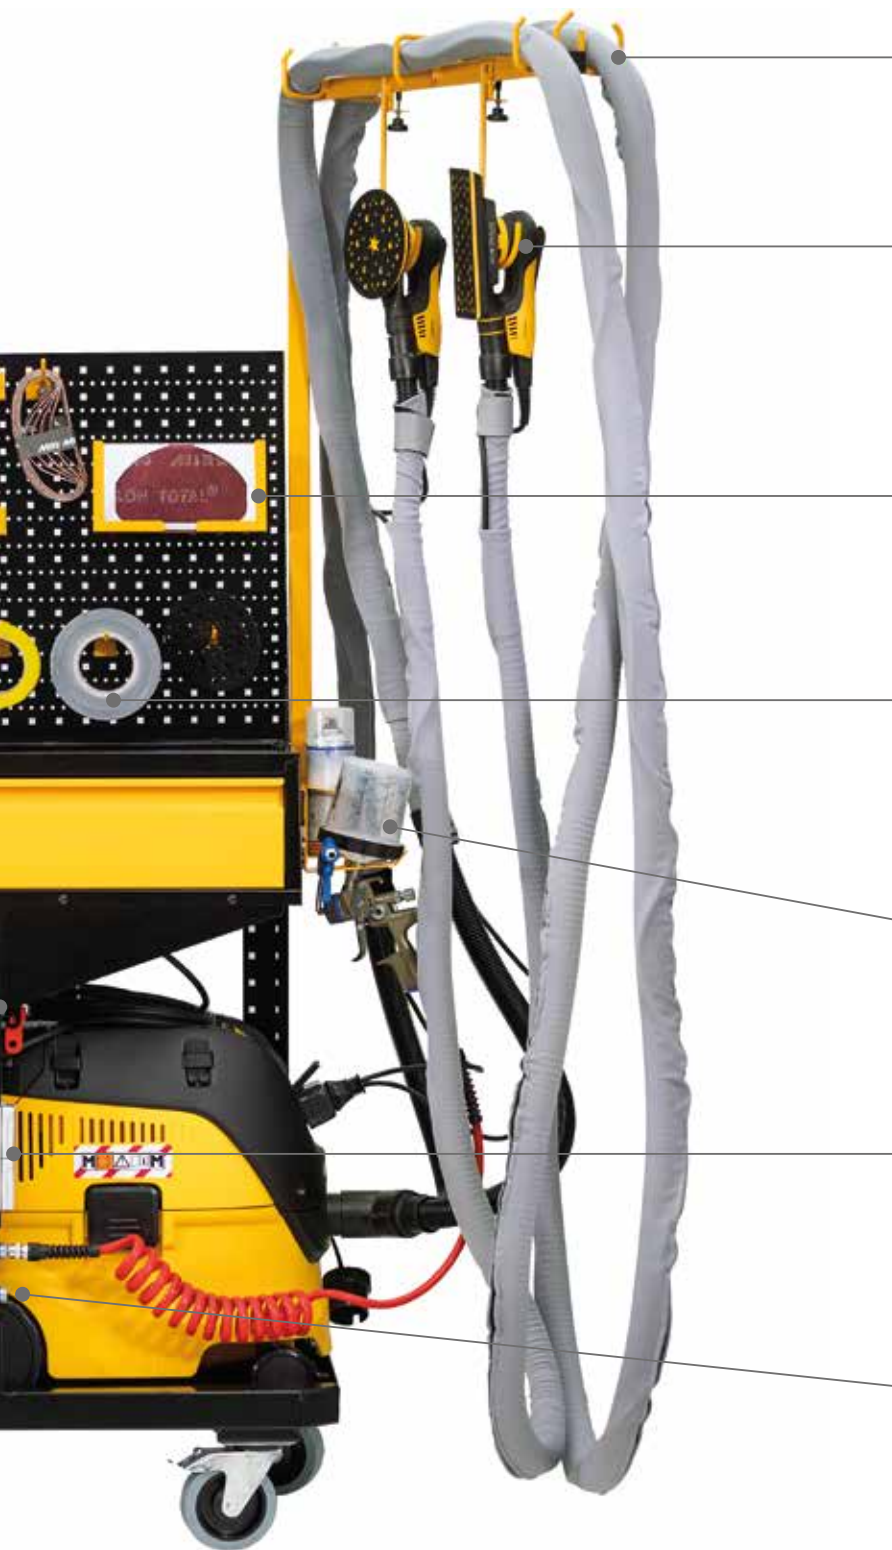

## Lockable swivelling castors

Excellent mobility even over grates. All four swivelling castors can be locked for secure positioning and preventing the cart from rolling away.

**The Mirka Modular Trolley** is designed to simplify and optimize the bodyshop workflow, depending of your line of work. It brings all the necessary tools and supplies within your reach for clear and ergonomic accessibility, keeping everything well organized and ready for a working day from the get go. The Modular Trolley forms a particularly good backbone for applying Mirka solutions and processes in collision repair, finishing, polishing or more.

There are several ways to make the Modular Trolley work for you. It can be ordered as a simplified basic version, with each equipment module added one by one to upgrade it. In other words, you can equip the Mirka Modular Trolley to fully cater to your specific line of work.

### New hose arm with holders

The new practical hose holder picks up hoses from the floor, making work safer. The hose arm is developed to fit two 27mm dust hoses and one 20mm hose.

### Machine holders

Secure and safe storage and resting position for 2-3 sanders, so that the workplace is logically organised.

### Mirlon Total tray

A Mirlon Total holder for making pads easily available.

### Hooks for gadgets

Place tapes or other equipment on the hooks.

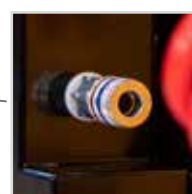

### Spraygun & aerosol can holders

Holders for the spraygun and two aerosol cans.

### Three power socket units

Provides power for multiple devices directly at the workplace. There is a separate power socket for the Dust Extractor on the other side of the trolley.

### Power/compressed air connection

Direct power and compressed air supply on the rear of the workshop cart, complete with flexible cable (abrasion-proof, excellent tensile strength and cut resistance, resistant to oils, greases, petrol and water).

### Air filter regulator

Pressure reducer with water separator ensures compressed air is dry, clean and delivered at optimum pressure.

In addition to custom configurations, different Trolley Kits are also available in six versions. Featuring different combinations from the start, they range from basic equipment to fully equipped, and changes can also be made later on thanks to the modular design. The Modular Trolley grows and develops together with your workflow.

**Work Station for Dust Extractor 1230/1242**

**Mirkacode:** 9190148011  
**EANcode:** 6416868929164

The Work Station is a compact shelf and hook system with dedicated space for Mirka cases, hoses and abrasives as well as hooks for machines. The functional work station mounts on top of the Dust Extractor 1230/1242 with fastening accessories. It should be fastened to the Dust Extractor with the case fastening accessory for DE 1230/1242, that needs to be ordered separately (8999110411). Note that pneumatic machines also need the pneumatic box for DE 1230/1242 230V.

**Trolley for Dust Extractor 1230/1242**

**Mirkacode:** 9190310111  
**EANcode:** 6416868925074

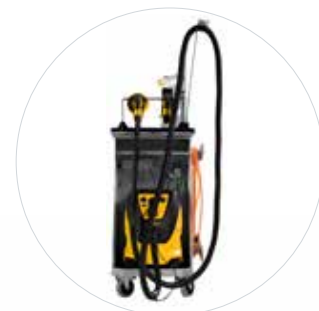

A stable trolley with adjustable height and two hollow sheet metal shelves, the lower for the Dust Extractor and the other for products. A hook and loop strip is also included on the right side to attach hand blocks to and an adjustable hanging device on the left side for hanging tools on. Two hooks on the back side to hang the dust hose on is also included. This trolley is also suitable for a Dust Extractor together with the Miro 955 wall sander.

**Solution Trolley**

**Mirkacode:** 9190129001  
**EANcode:** 6416868912470

The Solution Trolley houses the Mirka Dust Extractor, abrasives, tools and polishing bottles. Abrasives can be put on the top level for easy availability. There are also two drawers and a locker for storage of tools and abrasives. There is a handle for a few polishing bottles and a holder for two random orbital sanders and one orbital square sander. The trolley has also a holder with space for three hoses. In addition to this the package contains assemble instructions, a tool and keys for the locker. The package size is 92x56x54 cm.

**Mirka Solution Trolley (Grey)**

**Mirkacode:** 9193000112  
**EANcode:** 6416868943818

**NEW!**

This Mirka Solution Trolley is mobile, flexible and practical. It is a key element in professional workplace planning as it ensures short routes and work processes, as well as optimal access to materials and tools. The mobile work station features connections for both power and compressed air, as well as plenty of space for abrasives, machines and other accessories.

## Mirka Display Solutions for the store

Mirka is today one of the world's largest manufacturers of flexible abrasive materials, machines and concept solutions. For those of you who run or work in a store, we have store displays and packaging adapted for store sales to craftsmen and do-it-yourselfers. The range includes a large selection of abrasive products and accessories for the most varied needs in home, car, boat and forging. Contact your local seller for ordering and more information.

## ALEX Display

This brand Mirka Store Rack Display "Alex" is the perfect way of fronting your Mirka products for the store. The start section (Store Rack Alex Solo) includes 2 pieces of L-stand, crossbar, backplates, LED lightbox and a Mirka top sign. It has socket box on wheels, a bottom shelf and socket gables. The follow section (Store Rack Alex Extension) includes 1 piece of L-stand, crossbar, backplates, LED lightbox and a Mirka top sign. It has socket box on wheels and a bottom shelf. Build the Alex Display and choose number of sections after your needs. Note that all accessories are ordered separately.

**LEROS Display**

A floor display in steel with four fronts. The “LEROS Display” has a hook for Mirka LEROS and shelves with space for three additional tools, for example: Mirka DEROS, DEOS and DEOS Delta. The tool shelves has an anti-theft system with one common padlock and cables. Display a Dust Extractor with a systainer on top under the informational poster. The poster (kakemono) has print on both sides. Choose between Swedish, Norwegian or Danish language. The display has one document holder dedicated for leaflets/brochures (A4) and space for both industrial and store packed abrasives.

*Flexible, stearate coated abrasive for dry hand sanding of wood, fillers, paints and lacquers. Suitable also for sanding of profiles.*

The **Mirka Abranet®** features a net structure instead of a conventional paper backing. This results in extremely efficient on-tool dust removal that improves both the work quality and the working environment. Abranet is highly resistant to dust pilling and clogging, ensuring optimal usage for every abrasive. Each grit delivers excellent results, from the original Abranet to its many variations. The abrasives are best combined with Mirka's efficient and ergonomic power tools and dust extractors.

**INCOTERMS • Delivery terms****Terms of delivery are in accordance with Incoterms 2010****EXW** (Ex Works...)

The buyer is at risk when the goods have been placed at his disposal at agreed time and place.

→ Insurance to be covered by the buyer. The buyer bears the risk during the whole transport.

**FCA** (Free Carrier...)

The buyer is at risk when the goods have been delivered to the first carrier or terminal at agreed time and place.

→ Insurance to be covered by the buyer (the seller up to the named point).

**FAS** (Free alongside ship...)

The buyer is at risk when the goods have been delivered alongside the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

**FOB** (Free on board...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

**CFR** (Cost and freight...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

**CIF** (Cost, insurance and freight...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance must be covered by the seller (in favour of the buyer) to the port of destination complying with at least Institute Cargo Clauses (C) or similar clauses (further transports by the buyer).

**CPT** (Carriage paid to...)

The buyer is at risk when the goods have been delivered to the first carrier or terminal.

→ Insurance to be covered by the buyer.

**CIP** (Carriage and insurance paid to...)

The buyer is at risk when the goods have been delivered to the first carrier.

→ Insurance must be covered by the seller (in favour of the buyer) to the place of destination complying with at least Institute Cargo Clauses (C) or similar clauses (further transports by the buyer).

**DAP** (Delivered at place...)

The buyer is at risk when the goods have been placed at his disposal at agreed place of destination ready for unloading.

→ Insurance to be covered by the seller to the place of destination (further transports by the buyer).

**DAT<sup>1)</sup>** (Delivered at terminal...)

The buyer is at risk when the goods have been placed at his disposal at agreed terminal unloaded.

→ Insurance to be covered by the seller to the terminal (further transports by the buyer).

**DDP** (Delivered duty paid...)

The buyer is at risk when the goods have been placed at his disposal at agreed place of destination cleared for import and with duties paid ready for unloading.

→ Insurance to be covered by the seller. The seller bears the risk during the whole transport.

**1)** "Named terminal" includes such as quay, warehouse, container yard, road-, rail or air cargo terminal at named port or place of destination.

# SERVICE REPAIR

---

We hope you love your new Mirka power tool! To get the most out of your tool, support is available for your tool throughout its lifetime. Mirka offers repair and maintenance for Sweden and Denmark through our service centre in Belgium, and for Norway we have a authorized local service centre.

For service and tool repair in Belgium you can easily create your repair request by filling out the form at our website (mirka.se, mirka.dk). Order pick-up or drop-off for your power tool, and you'll have it back within five days from pick-up (when responding directly to the quotation request if relevant). The form can be used both by private individuals and retailers. If the service is not covered by the guarantee, we offer you a cost proposal. For more information and full warranty terms, visit our website.

You are always welcome to contact our Customer Service if you have any inquiries:  
sales.se@mirka.com or +46 54-69 09 50.
